

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

If the foregoing bonds are given by a surety company, the premium for the same shall be paid as other expenses of the office are paid. SECTION 21. This act is hereby declared to be an emergency act, necessary for the immediate preservation of the public peace and safety. Such necessity exists because of the reason that flagrant violations of the law prohibiting the liquor traffic prevail in some parts of the state which is encouraging the commission of other crimes, all resulting in the loss of life and property to many citizens. It is therefore essential that the governor be immediately clothed with authority and power to at once initiate investigations and prosecutions necessary for the punishment of criminals, and the termination of lawlessness, and secure uniformity of enforcement of such prohibitory laws throughout the state.

[House Bill No. 88.]

AN ACT

To amend section 7600 of the General Code, relating to the distribution of the state common school fund and the proceeds of the levy for school purposes, and to declare an emergency.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. Section 7600 of the General Code is hereby amended to read as follows:

Sec. 7600. After each semi-annual settlement with the county treasurer, each county auditor shall immediately apportion school funds for his county. The state common school fund shall be apportioned to each school district and part of district within the county on the basis of the number of teachers and other educational employes employed therein, and the expense of transporting pupils as shown by the reports required by law and the balance according to the ratio which the aggregate days of attendance of pupils in such districts bears to the aggregate days of attendance of pupils in the entire county. The annual distribution attributable to teachers and employes shall be according to the following schedule: twenty-five per centum of the salary of each teacher receiving a salary of not less than eight hundred dollars and a like percentage of the compensation paid to each person giving instruction in trade or technical schools, extension schools, night schools, summer schools and other special school activities, but not to exceed six hundred dollars for any such teacher or other person. That attributable to expense of transportation of pupils shall be thirty-seven and one-half per centum of the personal service expense incurred in such transportation.

Apportionment of school funds: state common school fund.

Annual distribution to teachers and employes.

Apportionment
of levy retained
in county.

When district
entitled to re-
ceive fund: dis-
tribution to dis-
tricts.

The proceeds of the levy required by section seven thousand five hundred and seventy-five to be retained in the county shall be apportioned to each school district and part of district on a like basis of teachers and other persons employed and aggregate days of attendance of pupils, excepting that the apportionment attributable to teachers and other employes shall be twelve and one-half per centum of the salaries of such teachers as are mentioned in this section, but not to exceed three hundred dollars for any such teacher. No school district shall be entitled to receive any portion of the said funds in any year until the reports of numbers, salaries and qualifications of teachers employed and aggregate days of attendance and expense of transportation of pupils have been made as required by law. The local school tax collected from the several districts or parts of districts in the county shall be paid to the districts from which it was collected. Money received from the state on account of interest on the common school fund shall be apportioned to the school districts and parts of districts within the territory designated by the auditor of state as entitled thereto on the basis of the total enrollment of pupils in each whole district entitled thereto, and the enrollment of pupils residing in parts of districts so entitled. All other money in the county treasury for the support of common schools and not otherwise appropriated by law, shall be apportioned annually in the same manner as the state common school fund.

SECTION 2. Said original section 7600 of the General Code is hereby repealed.

Emergency act.

SECTION 3. This act is hereby declared to be an emergency law necessary for the immediate preservation of the public peace, health and safety. The necessity therefor lies in the fact that it is impracticable to make distribution of the school funds upon the basis prescribed by present section 7600 of the General Code because of the complicated calculations required in many counties to effect such distribution; and unless a distribution of such common school funds is made at the time of the semi-annual settlement in the month of February, 1921, the schools of the state will be without funds for operation and maintenance. Therefore, this act shall go into immediate effect.

The sectional
number in this
act is in con-
formity to the

[House Bill No. 4.]

AN ACT

To authorize the taxing authorities of municipal corporations to fund deficiencies in operating revenues for the year 1921, issue bonds and to levy taxes for such purposes and to declare an emergency.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. For the purposes of this act:

"Subdivision" means a municipal corporation.

"Taxing authorities" means the council or other legislative body of the municipal corporation.

"Deficiency" means the aggregate sum of the following:

1. The unfunded obligations of a subdivision created prior to and outstanding on February 1, 1921, and due on or before said date, or to become due thereafter during the then current fiscal year of the subdivision, for the payment of which sufficient funds are not in the treasury thereof on February 1, 1921, or estimated to come into such treasury thereafter during such fiscal year from taxes and other sources of revenue to the extent of the excess of such obligations over and above such funds on hand and estimated future receipts applicable to the payment thereof and not needed to pay the fixed charges against the appropriate funds and the current expenses payable therefrom for the remainder of such fiscal year.

2. The excess, if any, of the estimated aggregate fixed charges and current expenses of such subdivision for the remainder of such fiscal year over and above the revenues from taxes and other sources estimated to come into such treasury after February 1, 1921, and applicable to such fixed charges and current expenses.

"Fixed charges" include salaries, wages, payments on contracts for fixed or regular services, as for light, heat, power, water or gas, and charges by law made payable from any such treasury without action by the legislative author-

Authority to fund deficiencies for 1921.

Terms defined.

"Fixed charges" shall include what.

ities thereof, election expenses, and contributions to libraries, universities, hospitals and pension funds. It excludes funded debt service, expenditures for permanent improvements, and such ordinary expenses as are included within the scope of "current expenses" as hereinafter defined.

"Fixed charges" defined.

Said term "fixed charges" means expenses of the character indicated by the foregoing enumeration for the purposes provided, and, at rates and quantities not in excess of those provided by laws, ordinances, resolutions and contracts in force on February 1, 1921, by ordinances and resolutions of municipal corporations passed prior to such date and not effective thereon for want of due publication, or pending the expiration of a referendum period, and by laws passed after such date, or ordinances or resolutions adopted in compliance with such laws; it being the intention of this act that no increase in the fixed charges of any subdivision beyond those established on February 1, 1921, shall enter into a deficiency except as herein expressly provided.

"Current expenses" defined.

"Current expenses" include such items of expense as the repair and maintenance of streets and bridges, the repair and maintenance of public property, the purchase of supplies and equipment of a consumable character, other than such as are herein referred to as fixed charges, and salaries and wages incidental thereto. It excludes funded debt service, expenditures for permanent improvements, and such expenses as are included within the scope of "fixed charges" as hereinbefore defined.

The foregoing enumeration of expenses as fixed charges and current expenses, is descriptive, and not exclusive or definitive; and matters and things similar in nature to those mentioned under each heading and not expressly excluded from either, shall be included within the scope of said terms.

Provided, however, that the aggregate amount of such fixed charges and current expenses, on the basis of which the amount of a deficiency is determined under this act, shall not in the case of any subdivision exceed the amount expended by such subdivision for fixed charges and current expenses in the year 1920.

Financial statement: contents.

SECTION 2. The taxing authorities of a subdivision by resolution (which resolution shall go into immediate effect without publication, and without being subject to a referendum) may direct the accounting officer of the subdivision to make up a financial statement of such subdivision as of the first day of February, 1921. Such accounting officer shall immediately examine the records, books and accounts of his office, and shall make up and file such statement in the office of the clerk of the taxing authorities. Such statement shall contain:

1. The balance outstanding to the credit or debit of the several funds, except sinking funds, on the books of the subdivision on February 1, 1921.

2. A showing in detail of the outstanding unfunded indebtedness of the several funds, of such subdivision on

February 1, 1921, whether represented by certificates of indebtedness, accounts payable, or otherwise, with the dates of maturity thereof.

3. An estimate of the amount necessary to provide for the fixed charges and current expenses of the subdivision for the remainder of the then current fiscal year, including obligations for such fixed charges or current expenses incurred prior to February 1, 1921, and payable within the then current fiscal year.

4. The amount of taxes estimated to come into the treasury of such subdivision to the credit of such funds during the remainder of the then current fiscal year, and applicable to the purposes of such year.

5. An estimate of the amount which will be received by such subdivision during the remainder of the current fiscal year from sources of revenue other than taxation, and credited to such funds.

If such accounting officer find that a deficiency exists in such funds of the subdivision, he shall certify the amount thereof, together with the various funds affected, under oath, on such statement.

SECTION 3. Thereupon the taxing authorities, by resolution passed by an affirmative vote of two-thirds of all their members elected or appointed, shall determine whether or not such deficiency exists, and the amount thereof, which shall not be greater than that certified to it by the accounting officer, and may issue and sell bonds of the subdivision in the amount so determined for the purpose of funding the deficiency of the subdivision.

Sale of bonds,
when.

Such resolution shall go into immediate effect without publication and without being subject to referendum.

SECTION 4. All bonds issued under the authority of this act shall be in denomination to be determined by the taxing authorities and shall run for a period not exceeding ten years. They shall be executed as are other bonds of the subdivision, shall express on their face the purpose for which they are issued, and shall bear interest at a rate not to exceed six per cent per annum, payable semi-annually and shall be sold for not less than par and accrued interest. Such provisions of sections 3922, 3923, 3924, 3926, 3927 and 1465-58 of the General Code as relate to the sale of bonds of the subdivision shall apply to the sale of such bonds.

Bonds, how ex-
ecuted.

SECTION 5. For the payment of the interest on such bonds and to provide a sinking fund for their redemption at maturity the proper levying authorities of the subdivision shall annually levy a sufficient tax. All interest and sinking fund levies on account of bonds issued in accordance with this act shall be excluded from the operation of any and all limitations on tax rates imposed by any law now in force. Such bonds shall not be counted in ascertaining any of the limitations prescribed by law upon the creation of bonded indebtedness or the total amount of outstanding bonded indebtedness of such subdivision.

Sinking fund;
tax levy for;
exempt from tax
limitation.

Proceeds, how
credited.

SECTION 6. The proceeds of such bonds shall be credited to the proper funds of the subdivision in the several accounts in which deficiencies exist in accordance with the respective amounts of such deficiencies, shall then be deemed appropriated and made available for expenditure for the purpose with respect to which said deficiencies exist, and shall not be used for any other purpose.

Emergency act.

SECTION 7. This act is hereby declared to be an emergency law necessary for the immediate preservation of the public health, peace and safety of the state. The reasons therefor being that municipalities affected by this act will be unable, unless this act takes effect immediately, to carry on the fire, police, and health departments and other necessary activities of municipalities.

AN ACT

To supplement sections 13523, 13524, 13529 and 13550 of the General Code, relating to bail bonds in criminal and quasi-criminal cases, so as to provide a bond commissioner and criminal record in counties having twelve or more common pleas judges, and defining the duties of such bond commissioner.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 13523, 13524, 13529 and 13550 of the General Code be, and the same are hereby supplemented as follows:

Sec. 13523-1. The chief justice or the presiding judge of the court of common pleas of any county having twelve or more common pleas judges, when to him it seems necessary, may appoint a bond commissioner and such deputies and clerks as may be required and fix their compensation, to be paid them monthly out of the county treasury on the

sioner, deputies
and clerks.

warrant of the county auditor. All such appointees shall serve during the pleasure of the appointing power unless previously removed according to law and the commissioner and his deputies shall give bonds for the faithful performance of their duties in such amounts as said chief justice or presiding judge may order. The county commissioners shall provide a convenient office or offices for the bond commissioner and such other conveniences as may be necessary.

Offices provided.

Fixing amount of bond.

In counties having a bond commissioner no court or other official shall fix the amount of any bond in the case of a defendant charged with a felony until an examination has been had before such court or official respecting the previous criminal record of such defendant whereupon the bond of such defendant shall be fixed in such adequate amount as the public interest may require, and in furtherance of justice in all misdemeanor cases the court or bail bond commissioner may permit the defendant to go upon his own personal recognizance.

Card system record kept; consolidated public index.

In all counties having a bond commissioner a public card system record shall be kept by the municipal court clerk and county clerk—alphabetically or otherwise arranged for ready reference—showing a record of all arrests, prosecutions, convictions and non-appearances in criminal cases—with the full name, address, age, citizenship and family of the defendant, the nature of the offense and judgment of the court. The bond commissioner shall make from all such or similar indices kept by all the courts of record in his county a consolidated public index showing said data.

Passing upon the sufficiency of sureties.

When sureties are required upon bonds, the bond commissioner, or one of his deputies, shall pass upon the sufficiency of all bonds in criminal or quasi-criminal cases in all courts of record in his county, including all municipal courts therein, and no such bond shall be received or accepted, in any of said courts, until the approval of the bond commissioner or one of his deputies is endorsed upon it. Said bond commissioner and his deputies and any court or official required to take or accept such bonds or to approve the sureties thereon, shall have authority to administer oaths to and take affidavits from all such sureties and shall require them to be examined under oath respecting their ownership of property, the accuracy of its description, its fair market value, incumbrance upon same, their residence, their liability upon any existing bonds and their qualifications generally, and any false statement wilfully made in such examination or affidavit shall be deemed perjury and punished as such.

Power to administer oaths.

Surety must be resident of county; qualifications of surety.

Sec. 13524-1. Each surety in every bond or recognizance approved by a bond commissioner must be a resident of the county in which the bond is given, or a surety company authorized to do business in the state of Ohio, and the sureties must own property worth double the sum to be secured; and, when an individual offers himself as such surety, he must own real estate within the county of a value, exclusive of liens thereon, equal to double the

amount of the bond, and shall be required to exhibit to the bond commissioner satisfactory evidence of ownership of said real estate and a recorded description of the same; and, when two or more such sureties are offered to the same bond or recognizance, they must have in the aggregate the qualification prescribed herein.

Such recognizances shall clearly disclose the full name of the surety or sureties, together with their residence address, and shall include a brief but accurate description of the real estate owned by such surety or sureties, and an agreement that in any suit upon the bond service of summons shall be sufficient if made by leaving a copy of summons at such designated residence address, or at such other place within the county, as may subsequently be designated in writing by such surety or sureties and accepted in indorsement upon said bond by such bond commissioner.

Any recognizance or bond approved by the bond commissioner shall forthwith become a lien upon said real estate owned by such surety or sureties, until the recognizance or bond shall have been exonerated or discharged.

The bond commissioner shall keep an accurate and indexed alphabetical record of all sureties and their liability and exonerations, and shall not accept as surety or sureties any person who is then liable on any recognizance or bond theretofore executed in any court of record within the county unless said prior bond or recognizance shall have been exonerated and discharged.

The bond commissioner, in lieu of the surety or sureties herein required, may accept a deposit of money in United States legal tender, Liberty Bonds, or other bonds of the United States, or Ohio state, county, or municipal bonds, in an amount equal to the bond, and such deposit shall be retained by the bond commissioner until the recognizance or bond shall have been exonerated and discharged; and, in the event of the forfeiture of any such bond or recognizance, the bond commissioner shall apply the money, or the proceeds from the sale of such bonds so deposited, in satisfaction of any judgment that may be rendered on the recognizance or bond, and the depositor of such fund shall surrender and forfeit all right in and to the same to the extent of such judgment.

If at any time the bond commissioner is of opinion that for any reason a bond approved by him is insufficient, he shall apply to the court in which the bond was given for an order directing a new or additional bond to be given.

Sec. 13550-1. In no action for the penalty on a forfeited bond or recognizance approved by a bond commissioner shall any reduction be made by the court from the full amount of the bond or recognizance, provided, however, that where it shall appear that after forfeiture of the bond or recognizance the principal on the bond has been surrendered or again arrested, the court may remit such penalty in whole or in part and render judgment accord-

ing to the circumstances of the case and upon such terms and conditions as seem just and reasonable.

Sec. 13529-1. In counties having a bond commissioner a certified copy of every bond and recognizance with individual sureties approved by him, shall forthwith be filed by him with the recorder of the county wherein such bond is taken, unless in the meantime the defendant shall have been acquitted or discharged by the court. The county recorder shall provide a suitable record book, properly indexed, in which he shall record all recognizances so certified to him and shall be entitled to receive such fees and record charges as are authorized by law for recording deeds and mortgages which shall be taxed in the costs of the respective cases, and shall be paid to the recorder by the county or municipal clerk, as the case may be, from funds in his hands upon certified vouchers or bills rendered by the recorder.

Certified list transmitted each day.

The bond commissioner shall transmit to the recorder each day a certified list, under the seal of the court, of all bonds or recognizances which have been exonerated or discharged, and the recorder shall note on the margin of the record of each recognizance the discharge or satisfaction of the same, and the lien on the real estate of the surety or sureties in such recognizances or bond shall thereby be cancelled and discharged.

Prosecution on forfeited bonds etc.

In all counties where there is a bond commissioner, all forfeited bonds and recognizances shall be delivered to him forthwith, and said bond commissioner shall prosecute all actions on such bonds and recognizances within a period of 30 days after delivery to him.

Application of collections.

All funds realized from the collection of such defaulted bonds and recognizances shall be paid into the county treasury and credited to a special fund called the forfeited bond fund and be expended only on the order of the county commissioners as provided in sections 2487, 2489 and 2490 of the General Code. When, at the end of any year the amount remaining in said forfeited bond fund exceeds the sum of \$10,000.00, the excess over that amount shall be transferred to the general fund.

Employees in
classified serv-
ice shall be as-
signed in proper
department.

SECTION 4. Every officer and employe in the classified civil service of the state civil service at the time this act takes effect shall be assigned to a position in the proper department created by this act, and, so far as possible, to duties equivalent to his former office or employment; and such officers and employes shall be employes of the state in the classified civil service of the state of the same standing,

grade and privileges which they respectively had in the office, board, department, commission or institution from which they were transferred, subject, however, to existing and future civil service laws. This section shall not be construed to require the retention of more employes than are necessary to the proper performance of the functions of such departments.

All books, records, papers, documents, property, real and personal, and pending business in any way pertaining to the rights, powers and duties by this act transferred to or vested in a department created by this act, or to or in any other office, department or institution, at the time this act takes effect shall be delivered and transferred to the department, office or institution succeeding to such rights, powers and duties.

Transfer of books, records, papers, property, etc.

This act shall not affect any act done, ratified or affirmed, or any right accrued or established, or any pending action, prosecution or proceedings, civil or criminal, at the time it takes effect; nor shall this act affect causes of such action, prosecution or proceeding existing at the time it takes effect; but such actions, prosecutions or proceedings may be prosecuted and continued, or instituted and prosecuted, by or before the department having jurisdiction or power under this act of the subject matter to which such action, prosecution or proceeding pertains.

Acts done, rights established, etc., shall not be affected.

If the senate is not in session at the time initial appointments are to be made under this act, the governor shall make temporary appointments as in case of a vacancy, to all offices required by this act to be filled by appointment by the governor by and with the advice and consent of the senate, unless the initial appointments are otherwise provided for in this act.

Temporary appointments.

If this act shall go into effect prior to the expiration of the present fiscal year, the present existing departments, bureaus, offices, boards, commissions, and other organizations of the state government affected by this act shall continue, and the officers and employes therein shall continue to serve until the expiration of the present fiscal year for which appropriations have been made, unless their terms of office expire prior thereto; and the reorganization herein provided for shall be put into effect and the officers whose positions are hereby created shall assume their duties at the commencement of the succeeding fiscal year.

Present boards, departments, etc., shall continue to end of fiscal year.

SECTION 5. This act is hereby declared to be an emergency law necessary for the immediate preservation of the public peace, health and safety. The reasons for such necessity lie in facts, which two-thirds of all the members elected to each branch of the general assembly have considered, found and determined and which are separately set forth herein, as follows:

Emergency act. Committee to make investigation by 83rd General Assembly.

The eighty-third general assembly created a joint legislative committee to "investigate all of the * * * offices which have been created by the general assembly * * * with a view of * * * combining and centralizing the

duties of the various departments, eliminating such as are useless and securing for the state of Ohio such a reorganization of its governmental activities as will promote greater efficiency and greater economy therein." Said committee made exhaustive investigations and published numerous reports, declaring the necessity of reorganizing fundamentally the executive branch of the state government in order to promote efficiency and conserve the public funds. Upon the organization of the eighty-fourth general assembly, special committees were appointed in each house thereof to consider the recommendations of the former joint committee. The governor, in his message to the general assembly, recommended action along the general lines indicated by the former committee's report. Wide publicity has been given to various projected plans of reorganization.

Shrinkage of
general revenue
fund.

According to the annual reports of the auditor of state, the balances subject to draft in the general revenue fund of the state, from which many of the activities of the state government are supported, had shrunk from more than two million dollars on June 30th, 1919, to less than one million dollars on June 30th, 1920, (all of which, and more, was covered by unexpired appropriations for the preceding fiscal year), clearly indicating the immediate necessity either for increasing the revenues of the state, or for effecting such a reorganization of the state administration as would tend to conserve the present revenues. General economic conditions make increased taxes highly undesirable at the present time.

Vacancies in
offices.

At the convening of the eighty-fourth general assembly numerous vacancies existed in various state offices and in various state boards, and other like vacancies have occurred since that time. By reason of the known probability of a reorganization such as is embodied in this act, persons appointed to fill such vacancies have uncertain tenure and are thereby deterred from initiating and carrying through definite administrative policies; and in several instances such appointments have been accepted temporarily only, pending early reorganization.

Demoralization
in departments.

As a result of all the foregoing, the state service in the appointive state departments, shown by said investigations to be wasteful and inefficient, is becoming increasingly demoralized. All of these departments exercise functions pertaining to the protection of the public health, the conservation of the public peace and morals, or the promotion of the public safety. The necessity of placing their functions upon a sound, economical, permanent and secure basis is great and immediate.

Appropriations
for current ex-
penses.

The appropriations for the current expenses of the state government and institutions which must be made by the eighty-fourth general assembly for the fiscal biennium beginning July 1st, 1921, cannot be effectually apportioned nor their amounts fixed unless the reorganization effected by this act is operative during the period to be covered by such appropriations, so that the departments and offices

of the state government are definitely determined; and such determination must be made and the framework of the executive branch of the state government must be definitely established and known at the time the general assembly is considering such appropriations.

Therefore, this act shall go into immediate effect.

To change the existing method of levying and distributing school taxes by the state and to clarify laws relating to local taxation for school purposes and to those ends to amend sections 5649-3a, 7575, 6350, 7595, 7596, 7597, 7600 and 7603, General Code, and to repeal sections 251, 7582, 7591, 7592, 7593, 7594, 7595-5 and 7804, General Code.

When tax levies shall be made.

Sec. 5649-3a. On or before the first Monday in June, each year, the county commissioners of each county, the council of each municipal corporation, the trustees of each

township, each board of education and all other boards or officers authorized by law to levy taxes, within the county, except taxes levied by the state or for state purposes, shall submit or cause to be submitted to the county auditor an annual budget, setting forth in itemized form an estimate stating the amount of money needed for their wants for the incoming year, and for each month thereof. Such annual budgets shall specifically set forth:

Annual budgets; what shall be specifically set forth.

(1) The amount to be raised for each and every purpose allowed by law for which it is desired to raise money for the incoming year.

(2) The balance standing to the credit or debit of the several funds at the end of the last fiscal year.

(3) The monthly expenditures from each fund in the twelve months and the monthly expenditures from all funds in the twelve months of the last fiscal year.

(4) The annual expenditures from each fund for each year of the last five fiscal years.

(5) The monthly average of such expenditures from each of the several funds for the last fiscal year, and also the total monthly average of all of them for the last five fiscal years.

(6) The amount of money received from any other source and available for any purpose in each of the last five fiscal years, together with an estimate of the probable amount that may be received during the incoming year from such source or sources.

(7) The amount of the bonded indebtedness, setting out each issue and the purpose for which issued, the date of issue and the date of maturity, the original amount issued and the amount outstanding, the rate of interest, the sum necessary for interest and sinking fund purposes, and the amount required for all interest and sinking fund purposes for the incoming year.

(8) The amount of all other indebtedness incurred, with a statement of the sections under which such indebtedness was incurred, and the amount of such additional taxes as may have been authorized as provided in section 5649-5 or 5649-4 or any other section of the General Code under which taxes have been levied outside of usual tax limitations or by a vote of the people, setting out in detail each item of indebtedness as provided in the next preceding paragraph and giving the details as to dates of such levies, their rates and the periods for which they run.

(9) Such other facts and information as the tax commission of Ohio or the budget commissioners may require.

The aggregate of all taxes that may be levied by a county, for county purposes, on the taxable property in the county on the tax list, shall not exceed in any one year three mills. The aggregate of all taxes that may be levied by a municipal corporation on the taxable property in the corporation, for corporation purposes, on the tax list, shall not exceed in any one year five mills. The aggregate of all

taxes that may be levied by a township, for township purposes, on the taxable property in the township on the tax list, shall not exceed in any one year one and five-tenths mills. The local tax levy for school purposes shall not exceed in any one year three mills on the dollar of valuation of taxable property in any school district. Such limits for county, township, municipal and school levies shall be exclusive of any special levy provided for by a vote of the electors, any levy excepted from the limitation provided for in section 5649-2 of the General Code or authorized by said section or by any other provision of law to be made in addition to the limitation provided for in said section; nor shall such limits include special assessments, levies for road taxes that may be worked out by the taxpayers, and levies and assessments in special districts created for road or ditch improvements, over which the budget commissioners shall have no control.

When budget shall be made.

Such budget shall be made up annually at the time or times now fixed by law when such boards or officers are required to determine the amount in money to be raised or the rate of taxes to be levied in their respective taxing districts.

Blank forms furnished by county auditor.

The county auditor shall provide and furnish such boards and officers blank forms and instructions for making up such budgets.

Tax levy for state common school fund; additional for county.

Sec. 7575. For the purpose of affording the advantages of a free education to all the youth of the state, there shall be levied annually a tax of fifteenth hundredths of one mill on the grand list of the taxable property of the state, to be collected as are other state taxes and the proceeds of which shall constitute the "educational equalization fund," and an additional tax of two and sixty-five hundredths mills, the proceeds of which shall be retained in the several counties for the support of the schools therein.

Peddlers license fees credited to general fund.

Sec. 6350. Peddlers license fees shall be credited at the time of semi-annual settlements to the general county fund of the county in which collected.

Equalization fund administered by superintendent; application for participation; inspection.

Sec. 7595. The superintendent of public instruction shall administer the educational equalization fund for the equalization of educational advantages throughout the state. The board of education of any school district may at any time between the first Monday in September and the first day of October of any year apply to the superintendent of public instruction for participation in such fund. Such application shall be made in such form and shall set forth such information as the said superintendent shall prescribe. If it appears from such application that the revenue resources of the district are insufficient to enable the applicant board to conduct the schools thereof without participation in such fund, the said superintendent shall cause an inspection of the schools of the district and the accounts of the applicant board to be made. Upon such examination the superintendent of public instruction shall ascertain whether or not the proportion of pupils to teachers

in the district is reasonable and proper, having regard to the topography and population of the district; whether the schedule of salaries paid to teachers is reasonable, whether the budget of contingent expenses and building enterprises is commensurate with the actual needs of the district; and whether the revenue resources of the district have been exhausted.

Sec. 7596. If, upon such examination, the superintendent of public instruction is satisfied that any adjustments or changes in local school policy and administration should be made as a condition of participation in the educational equalization fund, he may order such adjustments and changes to be made. For this purpose he shall have power to order any local board of education or any county board of education to exercise any power of whatsoever character in them vested by law, and such order shall be complied with forthwith, as a condition precedent to any participation in such fund. If the additional levy provided for by sections 5649-4, 5649-5 and 5649-5a of the General Code has not been submitted to the electors, such order shall direct such submission for such number of years as the superintendent may deem best and for such number of mills, within the limitations imposed by said sections, as may be required in order to meet the financial needs of the district, or to exhaust its revenue resources; and if such submission is not made, or if the electors of the district do not approve the additional levy so submitted, the district shall not participate in such fund.

Adjustments and changes; power to order submission of question.

Sec. 7597. After his orders have been complied with, the superintendent of public instruction shall ascertain the probable amount required to supplement the revenues of such district in order to enable the board of education thereof to conduct the schools of the district, and he shall certify the same to the auditor of state. He shall thereafter from time to time, within the amount so ascertained, and so long as his orders are complied with draw his vouchers on the auditor of state for such sums as may be actually needed by such district. The auditor of state shall issue his warrants therefor payable out of the educational equalization fund.

When state aid available.

Sec. 7600. After each semi-annual settlement with the county treasurer each county auditor shall immediately apportion school funds for his county. Each city school district and each exempted village school district shall receive the full amount of the proceeds of the levy of two and sixty-five hundredths mills provided in section 7575, General Code, in the given school district. The proceeds of such levy upon property in the territory of the county outside of city and exempted village school districts shall be apportioned to each school district and part of district within the county outside of city and exempted village school districts on the basis of the number of teachers and other educational employees employed therein, and the expense of transporting

pupils as shown by the reports required by law, and the balance according to the ratio which the aggregate days of attendance of pupils in such districts, respectively, bears to the aggregate days of attendance of pupils in the entire county outside of exempted village and city school districts.

Distribution to
teachers and
employees.

The annual distribution attributable to teachers and employees shall be according to the following schedule: thirty-seven and one-half per centum of the salary of each teacher or educational employee receiving a salary of not less than eight hundred dollars and a like percentage of the compensation paid to each person giving instruction in trade or technical schools, extension schools, night schools, summer schools and other special school activities, but not to exceed nine hundred dollars for any teacher or educational employee or other such person. In the case of a superintendent under the provisions of section 4740 distribution shall be made of the given per centum multiplied by a fraction which represents the part of his working time not given to supervisory duties.

The annual distribution attributed to expense of transportation of pupils shall be fifty per centum of the personal service expense incurred in such transportation.

When district
shall receive
portion of funds.

No school district shall be entitled to receive any portion of the said funds in any year until the reports of numbers, salaries and qualifications of teachers employed and aggregate days of attendance and expense of transportation of pupils have been made as required by law. The school tax levied by boards of education and collected from the several districts or parts of districts in the county shall be paid to the districts from which it was collected.

Apportionment
of state common
school fund to
districts.

Money received from the state on account of interest on the common school fund shall be apportioned to the school districts and parts of districts within the territory designated by the auditor of state as entitled thereto on the basis of the total enumeration of youth of school age in each whole district entitled thereto, and the enumeration of youth of school age residing in parts of districts so entitled, and all other money in the county treasury for the support of common schools and not otherwise appropriated by law, shall be apportioned annually to the school districts and parts of districts in the county in the proportions in which such districts and parts of districts are entitled to share in the distribution of the levy of two and sixty-five hundredths mills provided in section 7575 of the General Code.

What certificate
of apportion-
ment must
show.

Sec. 7603. The certificate of apportionment furnished by the county auditor to the treasurer and clerk of each school district must exhibit the amount of money received by each district from the state, the amount received from any special tax levy made for a particular purpose, and the amount received from local taxation of a general nature. The proceeds of the levy of two and sixty-five hundredths mills, under section 7575, General Code, shall be employed only for the payment of salaries of superintendents and teachers and other educational employees and the transpor-

tation of pupils. Funds received from special levies must be designated in accordance with the purpose for which the special levy was made and be paid out only for such purpose, except that, when a balance remains in such fund after all expenses incident to the purpose for which it was raised have been paid, such balance will become a part of the contingent fund, and the board of education shall make such transfer by resolution. Funds received from the local levy for school purposes must be designated so as to correspond to the particular purpose for which the levy was made. Moneys coming from sources not enumerated herein except for tuition of children of non-residents shall be placed in the contingent fund.

SECTION 2. That sections 251, 7591, 7592, 7593, 7594, 7595-5, and 7804, and original sections 5649-3a, 7575, 7582, 6350, 7595, 7596, 7597, 7600 and 7603 of the General Code be, and the same are hereby repealed. Repeals.

SECTION 3. This act shall take effect upon and with respect to the making of tax levies for the year nineteen hundred and twenty-two on the tax list made up in the year nineteen hundred and twenty-one, and all official acts with respect to such tax levies shall be governed thereby. This act shall not affect the distribution of taxes heretofore levied and in process of collection, nor the distribution of the reserve in the state common school fund provided for by any law in force when this act takes effect, nor the distribution of income from school lands or interest on the common school fund for and on account of the school year ending in the year nineteen hundred and twenty-one, but any taxes heretofore levied for the state common school fund under section 7575 of the General Code and now in process of collection which shall become delinquent and be collected after the August settlement in the year 1921 shall when collected be credited to the educational equalization fund. The powers and duties conferred by this section shall be subject to such control as is now or may hereafter be conferred by law upon any department of the state government with respect to the financial transaction of the departments, offices and institutions of the state government.

Sec. 1182. The state highway commissioner shall also appoint fifteen resident deputy state highway commissioners. Each of said resident deputy state highway commissioners shall under such regulations as may be prescribed by the state highway commissioner be authorized to act for and in the place of the state highway commissioner in all matters arising within the district to which such deputy is assigned. Each of said resident deputy state highway commissioners shall be a competent civil engineer and shall be paid a salary of four thousand dollars per annum and shall serve during the pleasure of the commissioner. The state highway commissioner shall require each such resident deputy to give bond in the sum of five thousand dollars conditioned for the faithful performance of his duties with sureties to the approval of the state highway commissioner.

Fifteen resident deputy state highway commissioners; appointment, qualifications, powers and duties.

It shall be the duty of the first assistant state highway commissioner to divide the state into districts and to assign a resident deputy to each of such districts. He may establish at a convenient location within each of such districts an office for the use of the resident deputy assigned to such district. Each resident deputy assigned to such an office shall be provided with a clerk or a stenographer, and the office of each such resident deputy shall be open at all reasonable times for the transaction of public business, and the regular attendance of such clerk or stenographer shall be required at such office, which shall be furnished with necessary stationery, office supplies and fixtures. The state highway department shall be authorized to lease proper quarters for such offices or may accept the use of offices in a court house or county building when the right to use the same shall have been granted by the county commissioners in charge thereof. The expense of maintaining all such offices shall be paid from the funds of the department. Each resident deputy shall have direct charge of all the operations of the state highway department within his district whether relating to the construction, improvement, maintenance or repair of roads or bridges, and shall perform all duties required of him by the first assistant state highway commissioner or either of the deputy highway commissioners. Said state highway commissioner may also appoint a chief clerk, who shall receive a salary of not more than two thousand five hundred dollars per annum, to be fixed by the state highway commissioner, and a secretary who shall receive a salary of not more than three thousand dollars per annum to be fixed by the state highway commissioner. The state highway commissioner may appoint as many additional clerks or stenographers and such engineers, superintendents, inspectors and other employes, and may purchase, maintain and operate such equipment within the limits of appropriations as he may consider necessary to carry out the provisions of this chapter. Each of said employes shall be paid a salary to be fixed by the state highway commissioner within the limits of the appropriations made by the general assembly. All appointees and employes for whom

provision is made in this and the preceding sections of this act shall receive their actual and necessary traveling expenses when on official business.

The words, "division engineer" occurring in any section of the General Code not amended or repealed by this act shall after the taking effect of this act be read, "resident deputy state highway commissioner."

General powers
and duties of
state highway
commissioner.

Sec. 1184. The state highway commissioner shall have general supervision of the construction, improvement, maintenance and repair of all inter-county highways and main market roads, and the bridges and culverts thereon. He shall aid the county commissioners in establishing, creating and preparing suitable systems of drainage for all highways within their jurisdiction or control and advise with them as to the construction, improvement, maintenance and repair of such highways; and he shall approve the design, construction, maintenance and repair of all bridges, including superstructure and substructure, and culverts or other improvements on inter-county or main market roads; and in the case of bridges and culverts on other roads, when the estimated cost thereof exceeds ten thousand dollars, the plans therefor shall be submitted to and approved by him, before contracts are let therefor. He shall cause plans, specifications and estimates to be prepared for the construction, maintenance or repair of bridges and culverts when so requested by the authorities having charge thereof, and he shall cause to be made surveys, plans, profiles, specifications and estimates for improvements whether upon state, county or township roads.

He shall make inquiry in regard to systems of road and bridge construction and maintenance wherever he may deem it advisable and conduct investigations and experiments, with reference thereto, and make all examinations, in his opinion, advisable, as to materials for road construction or improvement.

Annual conference of county
surveyors.

Sec. 1185-1. The state highway commissioner is authorized to call the county surveyors together once each year, for the purpose of conducting a conference or school in which the best methods of road building and other matters of interest may be discussed, and at which instructions may be given to said county surveyors pertaining to their work, by the state highway commissioner, or by another person designated by him for that purpose. The state highway commissioner shall also be authorized to call any county surveyor or county commissioner or commissioners into a conference at any time for any purpose connected with his official duties, and such county officers shall in addition to their salaries receive from their respective counties their actual and necessary expenses incurred in such attendance. Instead of a conference or school, the state highway commissioner may hold conferences or schools in various sections of the state for the convenience of the surveyors in such sections.

Power to summon county
surveyor or commissioners at
any time.

Sec. 1207-1. The state highway commissioner may, if he deems it expedient, enter into any contract authorized by this chapter upon a unit price basis. Where a contract is entered into upon a unit price basis, the contractor shall be required to state in his bid the sum for which he offers to perform each unit of each different kind or class of work and upon the completion of the work the quantities of each kind or class of work shall be measured and the contractor paid only for the quantities of work actually performed by him. Where the state highway commissioner elects to enter into a contract upon a unit price basis, he may include in the estimate such reasonable sum as he may deem necessary to cover variations in the actual quantities of work as compared with the estimated quantities. In the event the actual compensation earned by the contractor exceeds the estimate, any such excess shall be paid from any funds of the department which might lawfully be expended upon the improvement in question. In the event the actual compensation earned by the contractor is less than the estimate, the saving shall inure to the benefit of the state, county, township or townships and property owners in the same proportion existing between their several shares of the estimated cost.

Power to enter into contract upon a unit price basis.

Sec. 1208. The state highway commissioner may reject all bids. Before entering into a contract the commissioner shall require a bond with sufficient sureties; conditioned as provided in sections 2365-1 to 2365-4 inclusive of the General Code, and also conditioned that the contractor will perform the work upon the terms proposed, within the time prescribed, and in accordance with the plans and specifications thereof, and that the contractor will indemnify the state, county or township against any damage that may result by reason of the negligence of the contractor in making said improvement. In no case shall the state be liable for damages sustained in the construction of any improvement under this chapter.

Rejection of bids. Bond required before entering into contract.

If any bond taken under the provisions of this chapter is executed by a surety company, the state highway commissioner shall not be authorized to approve such bond unless there is attached thereto a certificate of the superintendent of insurance that such surety company is authorized to transact business in this state, and the power of attorney of the agent of such company executing such bond. The superintendent of insurance shall upon request issue to any duly licensed agent of such company such certificate without charge. If any bond taken under the provisions of this chapter is executed by a private individual or individuals as sureties, the state highway commissioner shall not be authorized to approve such bond unless there is attached thereto a sworn financial statement of such sureties showing the amount and specific character of their assets and liabilities, or a certificate of the county auditor of the county in which said sureties or one of them reside or have property to the effect that in his judgment such sureties

possess the qualifications provided by section 10219 of the General Code. The bond required to be taken under the provisions of this section shall be in an amount equal to one-half of the estimated cost of the work, and to the approval of the state highway commissioner.

How proportions
of cost and ex-
penses paid.

Sec. 1212. The state's proportion of the cost and expense of the construction, improvement, maintenance or repair of a highway under the provisions of this chapter, shall be paid by the treasurer of state upon the warrant of the auditor of state. The warrant of the auditor shall be issued upon the requisition of the state highway commissioner and be paid from any appropriation or funds available to carry out the provisions of this chapter. The proportion of the cost and expense of construction, improvement, maintenance or repair to be paid by the county, township and property owners, shall be paid by the treasurer of the county in which the highway is located upon the warrant of the county auditor, issued upon the requisition of the state highway commissioner. Such warrant shall be paid from any funds in the county treasury, available for the construction, improvement, maintenance or repair of roads, bridges and culverts within the county, and not otherwise specifically appropriated. Where the improvement has been made upon the application of the township trustees, the proportion of the cost and expense of such construction, improvement, maintenance and repair to be made by the township and property owners shall be paid by the treasurer of the township in which the highway is located upon the order of the township clerk issued upon the requisition of the state highway commissioner. The payment of the cost of the construction of such improvement shall be made as the work progresses upon estimates made by the engineer in charge of such improvement, and upon approval of the state highway commissioner. Except as hereinafter provided no payment by the state, county or township, on account of a contract for any improvement under this chapter shall before the completion of said contract exceed ninety per cent of the value of the work performed to the date of such payment, and except as hereinafter provided, ten per cent of the value of the work performed shall be held until the final completion of the contract in accordance with the plans and specifications. In addition to the above payments on account of work performed, the state highway commissioner may also, if he deems it proper allow and pay to a contractor a sum not exceeding ninety per cent of the value of material delivered on the site of the work, but not yet incorporated therein, provided such material has been inspected and found to meet the specifications. When an estimate is allowed on account of material delivered on the site of the work but not yet incorporated therein, such material shall thereupon become the property of the state; but in case such material is stolen or destroyed or damaged by casualty before being

used, or for any reason becomes unfit for use, the contractor will be required to replace the same at his own expense. When the retained percentage, plus the difference between the contract price and the estimates allowed, exceeds by more than fifteen per cent the estimated cost of completing the work, as determined by the state highway commissioner, the state highway commissioner may, if he deems it proper, pay to the contractor all or any part of said excess sum, retaining not less than the estimated cost of completing the work, as determined by him, plus fifteen per cent thereof.

Sec. 1212-2. In addition to the estimates provided for by section 1212 of the General Code, the state highway commissioner may also, if he deem it proper and under such conditions as he may prescribe, allow and pay to a contractor a sum not exceeding ninety per cent of the value of material delivered by such contractor, and safely stored at a railroad station or siding, or other point in the vicinity of the work. When such estimate is allowed, the material on which the same is allowed shall thereupon become the property of the state but in case such material is stolen or destroyed or damaged by casualty before being used, or for any reason becomes unfit for use, the contractor will be required to replace the same at his own expense. This section shall apply to all uncompleted contracts in force at the time of the taking effect of this act, as well as to contracts let thereafter. A contractor shall have the right, however, to insure against loss or damage by fire or otherwise, all materials on which estimates have been allowed under this or any other section.

What estimates may be allowed and paid contractors.

Sec. 1222. For the purpose of providing a fund for the payment of the county's proportion of the cost and expense of the construction, improvement, maintenance and repair of highways under the provisions of this chapter, the county commissioners are hereby authorized to levy a tax, not exceeding one and one-half mills, upon all the taxable property of the county. Said levy shall be in addition to all other levies authorized by law for county purposes but subject, however, to the extent of one-half mill thereof, to the limitation upon the combined maximum rate for all taxes now in force. The remaining one mill of said levy so authorized shall be in addition to all other levies made for any purpose or purposes, and the same shall not be construed as limited, restricted or decreased in amount or otherwise by any existing law or laws. The proceeds of such levy shall be used solely for the purpose of paying the county's proportion of the cost and expense of constructing, improving, maintaining and repairing inter-county highways and main market roads or parts thereof in co-operation with the state highway department or the federal government or both; and the funds produced by such levy shall not be subject to transfer to any other fund, either by order of court or otherwise.

Tax levy for county's proportion; application of proceeds; limitations.

The county commissioners of any county in which less

than one and one-half mills is levied in any year under the provisions of this section shall within the above limitations determine what part of such levy shall be subject to the limitations upon the combined maximum rate for all taxes now in force and what part of such levy shall be outside such limitation and unrestricted by any existing law or laws.

Tax levies by trustees or commissioners in townships interested; limitations.

For the purpose of providing a fund for the payment of the proportion of the cost and expense to be paid by the interested township or townships for the construction, improvement, maintenance or repair of highways under the provisions of this chapter, the county commissioners or the township trustees are authorized to levy a tax not exceeding two mills upon all taxable property of the township in which such road improvement or some part thereof is situated. Such levy shall be in addition to all other levies made for any purpose or purposes and the same shall not be construed as limited, restricted or decreased in amount or otherwise by any existing law or laws. Where the improvement is made upon the application of the county commissioners said county commissioners shall levy the tax and where the improvement is made upon the application of the township trustees said township trustees shall levy the tax. A county or township may use any moneys lawfully transferred from any fund in place of the taxes provided for under the provisions of this section.

Bond issues in anticipation of tax collection.

Sec. 1223. The county commissioners, in anticipation of the collection of such taxes and assessments or any part thereof, and whenever such construction, improvement or repair is being done upon their application, may, whenever in their judgment it is deemed necessary sell the bonds of said county in any amount not greater than the aggregate sum necessary to pay the respective shares of the estimated compensation; damages, cost and expense payable by the county, township or townships and the owners of the lands assessed or to be assessed for such improvement, but the aggregate amount of such bonds issued and outstanding at any one time and to be redeemed by a tax levy upon the grand duplicate of the county shall not be in excess of one per cent of the tax duplicate of such county. In computing such one per cent. bonds to be redeemed by special assessments or by tax levies upon the interested township or townships shall not be taken into account. Bonds issued under authority of this section shall state for what purpose issued and bear interest at a rate not to exceed six per cent. per annum, payable semi-annually, and in such amounts, and to mature in not more than ten years after their issue, as the county commissioners shall determine. Prior to the issuance of such bonds the county commissioners shall provide for the levying of a tax upon all the taxable property of the county to cover any deficiency in the payment or collection of any township taxes, or any deficiency in the levy, payment or collection of any special assessments, antici-

pated by such bonds. The proceeds of such bonds shall be used exclusively for the payment of the cost and expense of the construction, improvement or repair of the highway for which the bonds are issued. If bids are made for a portion of the proposed issue, the commissioners may accept a combination of bids, if by so doing the bonds will produce the best price to the county, and at the request of the purchaser the bonds may be issued in denominations of one hundred dollars or multiples thereof, notwithstanding any provision of the resolution providing for their issue. Where such construction, improvement or repair is made upon the application of the township trustees such township trustees are hereby authorized to sell the bonds of the interested township in any amount not greater than the estimated compensation, damages, cost and expense of such construction, improvement or repair, and under like conditions hereinbefore prescribed for county commissioners. The making of the special assessment hereinbefore referred to shall not be a condition precedent to the issuance of bonds under the provisions of this section and such special assessments may be made either before bonds are issued under the provisions of this section or after the issuance of such bonds.

Sec. 1225. The state highway commissioner shall at the time he approves surveys, plans, profiles, cross-sections, estimates and specifications for any road improvement, or plans for the construction, improvement or repair of any bridge or culvert, determine whether the making of such improvement will require the closing to traffic of such highway, bridge or culvert. Plans and specifications for the improvement of inter-county highways and main market roads, whenever practicable, shall be so prepared as to avoid closing to traffic at any time the entire width of the highway or bridge being improved. It shall be unlawful for any contractor or other persons to close a highway or bridge being improved by the state unless such action shall have first been determined to be necessary by the state highway commissioner. If the state highway commissioner determines that the making of the improvement will require the closing to traffic of the highway, bridge or culvert, he shall further determine whether it is practicable to construct within the limits of the highway or to provide a new location for and construct a temporary highway, bridge or culvert to be used by travelers in lieu of the closed highway, bridge or culvert. His determination in respect to all matters above set forth shall be endorsed in writing upon the surveys, plans, profiles, cross-sections, estimates and specifications. If the state highway commissioner determines that it is impracticable to construct a temporary highway or bridge he shall cause to be included as a part of the plans for improvement, plans, specifications and estimates for all necessary and proper barriers and proper uniform detour signs. Signs must be so placed and maintained as to conspicuously indicate the points at which it is

necessary for traffic to leave the closed highway, and plainly mark the most direct practicable route to be followed, indicating the road to be followed by the detoured traffic at all road crossings and forks. The detour signs placed upon the closed highways at the points where the traffic shall leave the same must at all times during the period such highway is closed be marked between sunset and sunrise by a red light. The costs and expense of constructing temporary highways or bridges or placing barriers and detour signs shall be included in and regarded as a part of the costs and expenses of the improvement and shall be paid accordingly. It shall be unlawful for any contractor or for any employe of the state highway department, when the state is proceeding by force account, to close any highway, bridge or culvert until such temporary highway or bridge has been constructed or such barriers and detour signs have been placed. Immediately upon the reopening of the highway, bridge or culvert it shall be the duty of the contractor, or of the employe of the state highway department in charge of such work, in case the state is proceeding by force account, to immediately remove all barriers and detour signs. Only such portion of any highway shall be closed at any one time as shall be deemed reasonably necessary by the state highway commissioner. The right of way for temporary highways and bridges shall, where a private right of way is necessary, be furnished by the county or township on whose application the improvement is being constructed, or by the state where the improvement is being constructed without co-operation, and all temporary highways, bridges and culverts and detour signs shall be maintained by the contractor until the permanent highway, bridge or culvert is completed and reopened for traffic. For the purpose of locating, constructing and erecting temporary highways or bridges the state highway commissioner or any persons acting under his authority, may enter upon lands adjoining or near to a highway to be closed and may agree with the owners of such lands as to damages, if any, caused thereby. If the state highway commissioner is unable to agree with such owners as to the amount of damages thus sustained, the amount thereof shall be ascertained, determined and paid as in the case of the condemnation of road materials.

Selection of
direct detour
route.

If the state highway commissioner determines that it is impracticable to construct either within the limits of the highway or upon a new location over private lands, a temporary highway, bridge or culvert to be used by travelers in lieu of the closed highway, bridge or culvert, he shall before the closing to traffic of the highway, bridge or culvert to be constructed, improved or repaired, select the most practicable, direct detour route over existing highways and cause to be placed and maintained detour signs along such route as hereinbefore provided. He shall furthermore before the closing to traffic of the highway, bridge or culvert to be constructed, improved or repaired, place in passable condition for traffic the detour route so selected

dition, detour

and marked by him and he shall be required to maintain in a passable condition for traffic such detour route during the entire time that the highway, bridge or culvert under construction is closed to traffic. He shall furthermore be required, at the time of the opening to traffic of the highway, bridge or culvert so constructed, to restore such detour route to as good condition as it was at the time of its selection by him as a detour route. The expense of preparing, maintaining and restoring such detour route may be paid from the main market road fund of the department in the event the improvement in question is upon a main market road, or from the inter-county highway fund of the department apportioned to the county in which such improvement is located, or from the maintenance and repair fund of the department, as may be determined by the state highway commissioner.

Sec. 3298-53a. The board of trustees of a township, in which township there is located a municipal corporation or corporations, or a part of a municipal corporation, and in which township that portion thereof not included within the corporate limits of such municipal corporation or corporations has been erected into a road district, shall be authorized to enter into an agreement with the county commissioners of the county within which such township is situated, providing for the construction, improvement, maintenance or repair by said board of county commissioners of a road within such road district, and such board of township trustees shall be authorized to assume on behalf of such road district such proportion of the compensation, damages, costs and expenses of said improvement as they may deem proper. The remainder of the compensation, damages, costs and expenses of such improvement shall be paid in part by the county and shall in part be assessed against the real estate abutting upon said improvement, or against the real estate situated within one-half mile of either side thereof, or against the real estate situated within one mile of either side thereof, or against the real estate situated within two miles of either side thereof, as may be fixed by the terms of said agreement between the county commissioners and township trustees. For the payment of that part of the compensation, damages, costs and expenses assumed by the township trustees on behalf of said road district, said trustees shall be authorized to levy taxes against said road district and issue the bonds of said road district under the provisions of sections 3298-44 and 3298-45 of the General Code. The road district shall pay to the county treasurer its agreed proportion of the estimated compensation, damages, costs and expenses of said improvement as fixed in said agreement between the county commissioners and the township trustees out of the proceeds of any such tax levies or bond issues. All proceedings relating to the letting of the contract, the supervision of the work and the making of assessments and all other proceedings in connection with such improvement except as

provided for by this section shall be conducted by the county commissioners as in the case of the construction, improvement, maintenance and repair of county roads.

Agreement with county commissioners for construction.

Such board of township trustees shall also be authorized to enter into an agreement with the county commissioners providing for the construction by the state highway department upon the application of such county commissioners of a road improvement within such road district and shall be authorized to assume on behalf of such road district such proportion of the compensation, damages, costs and expenses of such improvement as may to them seem proper. In the event of their making such an agreement, they shall in like manner be authorized to levy taxes upon and issue the bonds of such road district as hereinbefore provided and pay to the county commissioners out of the proceeds of such tax levies and bond issues, their agreed proportion of such compensation, damages, costs and expenses.

Bond issues in anticipation of collection of special assessments, full obligations against county; tax levy.

Sec. 5630-1. Bonds issued by county commissioners in the manner provided by law in anticipation of the collection of special assessments levied or to be levied against the property abutting upon a proposed improvement or to be benefited thereby, or in anticipation of the collection of taxes upon the taxable property of any township, or townships, of the said county within which such improvement is to be made, shall be full, general obligations of such county, for the payment of the principal and interest of which, when due, the full faith, credit and revenues of such county shall be pledged. The county commissioners shall, prior to the issuance of the bonds above mentioned, provide for the levying of a tax upon all the taxable property of the county to cover any deficiency in the payment or collection of such township taxes, or in the levy, payment or collection of such special assessments.

Compensation and damages, bond issue for, authorized in anticipation of collection; tax levy.

Sec. 6929. The county commissioners, in anticipation of the collection of such taxes and assessments, or any part thereof, may whenever, in their judgment it is deemed necessary, sell the bonds of said county in any amount not greater than the aggregate sum necessary to pay the estimated compensation, damages, costs and expenses of such improvement. Such bonds shall state for what purpose they are issued and shall bear interest at a rate not to exceed six per cent. per annum, payable semi-annually, and in such amounts and to mature at such times as the commissioners shall determine, subject to the provision however that said bonds shall mature in not more than ten years. Prior to the issuance of such bonds the county commissioners shall provide for the levying of a tax upon all the taxable property of the county to cover any deficiencies in the payment or collection of any township taxes, or any deficiencies in the levy, payment or collection of any special assessment, anticipated by such bonds. The sale of such bonds shall be advertised once not later than two weeks prior to the date fixed for such sale in an English news-

paper published and of general circulation within such county, if there be an English newspaper published in said county, but if there be no such paper published in said county then in an English newspaper having general circulation in said county. Such bonds shall be sold to the highest bidder for not less than par and accrued interest. The proceeds of such bonds shall be used exclusively for the payment of the compensation, damages, costs and expenses of the improvement for which they are issued. The making of the special assessments hereinbefore referred to shall not be a condition precedent to the issuance of bonds under the provisions of this section, and such special assessments may be made either before bonds are issued under the provisions of this section or after the issuance of such bonds.

Sec. 6947. Before entering into a contract, the county commissioners shall require a bond payable to the state of Ohio, for the use of the said county in a sum equal to one-half of the estimated cost of the work with good and sufficient sureties or with a surety company authorized to do business in the state of Ohio, conditioned on the faithful performance of the work in accordance with the plans and specifications. Such bond shall also indemnify the county against the damages that may be suffered by failure to perform such contract according to the provisions thereof and in accordance with the specifications for said improvement. Nothing herein contained shall be held to prevent the payment out of any estimate or estimates that may be due, upon the assignment by the contractor to any person who has furnished material for the work, or performed labor thereon, of the amount due for such material or labor.

Bond of contractor.

Sec. 6947-1. The payment of the cost of the construction of such improvement shall be made as the work progresses upon estimates made by the county surveyor. Except as hereinafter provided, no payment on account of the contract for any improvement shall before the completion of said contract exceed ninety per cent. of the value of the work performed to the date of such payment, and except as hereinafter provided ten per cent. of the value of the work performed shall be held until the final completion of the contract in accordance with the plans and specifications. In addition to the above payments on account of work performed, the county surveyor may also, if he deem it proper, allow to the contractor an estimate not to exceed ninety per cent. of the value of material delivered on the site of the work but not yet incorporated therein, provided such material has been inspected and found to meet the specifications. When an estimate is allowed on account of material delivered on the site of the work but not yet incorporated therein, such material shall thereupon become the property of the county, but in case such material is stolen or destroyed or damaged by casualty before being used, the contractor will be required to replace the same at his own expense. When the retained percentage plus the

Payment on estimates shall not exceed ninety per cent.

difference between the contract price and the estimates allowed exceeds by more than fifteen per cent., the estimated cost of completing the work as determined by the county surveyor, the county surveyor may, if he deem it proper, allow to the contractor an estimate equal to all or any part of said excess sum, retaining not less than the estimated cost of completing the work as determined by him plus fifteen per cent. thereof. Where a portion of a section of highway covered by a contract is completed and opened to traffic, all retained percentages held in connection with such portion of said section shall be forthwith released and paid to the contractor.

Payment on estimates of materials delivered shall not exceed ninety per cent.

Sec. 6947-1a. In addition to the estimates provided for by section 6947-1 of the General Code, the county surveyor may also, if he deem it proper and under such conditions as he may prescribe, allow and pay to a contractor a sum not exceeding ninety per cent. of the value of material delivered by such contractor, and safely stored at a railroad station or siding, or other point in the vicinity of the work. When such estimate is allowed, the material on which the same is allowed shall thereupon become the property of the county but in case such material is stolen or destroyed or damaged by casualty before being used, or for any reason becomes unfit for use, the contractor will be required to replace the same at his own expense. A contractor shall have the right, however, to insure against loss or damage by fire or otherwise, all materials upon which estimates have been allowed under this or any other section.

Salary of engineer, proportion paid by state when highways under control of state.

Sec. 7182. The state highway commissioner may designate the county surveyor to have charge of all highways, bridges and culverts within his county under control of the state or he may designate some other competent civil engineer to have charge of all highways, bridges and culverts within one or more counties and under control of the state. The county surveyor or other civil engineer designated as above shall perform such duties in reference to the highways, bridges and culverts under the control of the state and within the county or counties assigned to him as may be prescribed by law or by the state highway commissioner. The compensation of the engineer so appointed whether such engineer be the county surveyor or whether he be some other person, shall be fixed by the state highway commissioner and the same shall be paid out of any funds available for the construction, improvement, maintenance and repair of inter-county highways. In the event the county surveyor is designated and receives such compensation, he shall forthwith upon the receipt of the same, pay it into the county treasury of his county to the credit of the general county fund. The state highway commissioner shall be authorized whenever he deems it expedient to revoke any designation or appointment made under the provisions of this section and to make a new designation or appointment.

Revocation of designation or appointment.

Attorney General.

Sec. 1231-6.

SECTION 2. The court in which a proceeding is brought to recover a tax or assessment paid, or to enjoin a tax or assessment levied or ordered to be levied, to pay any part of the costs and expenses of any road improvement constructed by the state highway department of the state of Ohio or by any county, township or road district of the state, may in its discretion upon the application of any party to such action direct and cause any necessary survey of the improvement and of the lands assessed therefor to be made by a competent, disinterested engineer, who shall upon oath report his findings upon the matters covered by the court's order, and such report shall be received and considered by the court as is other competent evidence upon the issues to be determined. The court shall in any such proceeding allow oral testimony that any acts required by law for such improvement have been substantially performed notwithstanding errors, defects or irregularities in the record kept or required to be kept by any board or officer. In case of claimed want of notice as required by law, any evidence may be offered in any such proceeding that the plaintiff had knowledge of the proceedings for such improvement or of the proceedings for making and confirming assessments and actual opportunity to appear therein and be heard, which evidence may also be considered upon the issues. The court shall be authorized to make such judgment or order as will be equitable, and may order any tax or assessment to remain on the duplicate for collection, or order it to be levied, or perpetually enjoin the levy or collection of the same or any part thereof as to the plaintiff, or if it has been in whole or in part paid under protest or without knowledge, order the whole or such part as is just and equitable to be refunded. The court may also make a re-assessment of the whole or any part of the original assessment, or may order the board or officer by whom the assessment was made, or other proper board or officers, to make a re-assessment. Upon the granting of partial relief to the plaintiff the court may apportion the costs equitably between the parties. Proceedings with respect to such taxes and assessments shall be liberally construed by the courts to secure a speedy completion of the work at reasonable cost and the speedy collection of assessments after the time has elapsed for their payment, and merely formal objections shall be disregarded. Such proceedings shall, however, be strictly construed in favor of the owner of the property assessed as to the constitutional and statutory limitations on assessment of private property. No tax or assessment shall be held invalid by any court by reason of any error or omission in the proceedings, not substantially affecting the rights of the plaintiff. The provisions of this section shall apply to pending actions and proceedings.

In proceeding to enjoin collection of tax, etc., court may order survey of improvement and lands.

AN ACT

To amend sections 8024, 8025, 8027, 8028, 8029 and 8030 of the General Code and to enact supplemental sections 8024-1, 8030-1 and 8030-2, relative to adoption of children.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 8024, 8025, 8027, 8028, 8029 and 8030 of the General Code be amended and supplemented to read as follows:

Sec. 8024. Any proper person, or a husband and wife jointly, may petition the probate court of the county in which he or they have a legal settlement, of the county in which the child resides or of the county in which the child had a legal residence when it became a public charge, for leave to adopt a child and for a change of the name of such child. Such petition for adoption shall specify the name, age, and place of residence of the petitioner and of the child, and the name by which the child shall be known; whether such child is possessed of any property, and the full description of the property, if any; whether the child has one or both parents living; in case one or both are alive, then the name or names and place of residence of such father and mother shall be given unless proven to be unknown to the petitioner. Provided that if such child sought to be adopted is, by previous order of a juvenile court, under the legal guardianship and permanent custody of a state board or of an institution or agency certified by the board of state charities for the care of children, or has been legally surrendered to the guardianship of such institution or agency, then the names of parents shall be omitted from such peti-

tion, but the court shall cause such allegation and the petition to be verified.

Hearing on petition and examination of parties.

Appointment of next friend. Who may be designated as such.

Sec. 8024-1. Upon the presentation of such petition the same shall be filed with the court and the said court shall appoint a day for the hearing of said petition and the examination, under oath, of the parties in interest, not less than ten nor more than thirty days from the filing of the petition. It shall be at the option of the court to adjourn the hearing of said petition or the examination of the parties in interest, from time to time, as the nature of the case may require. If it shall be necessary, under the provisions of this act, that a discreet and suitable person shall be appointed as next friend to the child sought to be adopted, the court shall make such appointment and shall thereupon assign a day for the hearing of said petition and examination of the parties in interest, not less than ten nor more than thirty days from the time of appointing the next friend. In case there is in the county an institution or agency approved by the board of state charities, such institution or agency may be designated as next friend and consent be given as indicated in section 8025. Or the court may order the board of state charities through an authorized representative to act in such capacity. Such person, institution, agency or board thus designated shall proceed to verify the allegations of the petition, shall make appropriate inquiry to determine whether the proposed foster parents and their home are suitable for such child, and whether such child is a proper subject for adoption in such home. If such child is under the legal guardianship of a state board or of any certified institution or agency, no next friend shall be appointed, but such board, institution or agency shall prepare the report required by this section. As soon as practicable, there shall be submitted to the court a full report in writing, with a recommendation as to the proposed adoption and any other information concerning such child or the proposed home as the court may require. Upon the day so appointed, the court shall proceed to a full hearing of the petition and the examination of the parties in interest, under oath, with the right of adjourning the hearing and examination from time to time as the nature of the case may require. The board of state charities shall prepare and furnish to the probate court a suitable blank for use by persons designated to make the report required by this section.

Written consent required.

Sec. 8025. In any adoption proceedings written consents must be given to such adoption as follows:

(a) By the child sought to be adopted if more than thirteen years of age.

(b) By each of the living parents or by the mother of an illegitimate child, except as follows:

(c) By the parent or person awarded the legal custody and guardianship by a juvenile court because of dependency, or because of the mental, moral or other unfitness

of one or both parents; provided that such juvenile court approves of such consent whereupon the jurisdiction of such court over such child shall cease.

(d) By the parent awarded custody of child by divorce decree, provided the court which granted such decree approves of such consent, and because of such approval the jurisdiction of such court over such child shall thereupon cease.

(e) By legal guardian of the person of such child, if parents are dead or their residence has been unknown for at least one year, or if the parents have, because of mental, moral or other unfitness, been deprived of legal custody and guardianship of such child by juvenile court; but if there is no guardian and such child is not the ward of a state board or of a certified institution or agency, a next friend shall be appointed as hereinbefore provided, to give consent.

(f) If the parent or parents having the legal custody give the custody of such child for the full term of its minority to any institution or agency established under the laws of the state to care for children and under the approval of the board of state charities, or if such institution or agency has otherwise legally acquired the custody and control of such child, the president or secretary of such institution or agency shall file a certified copy of the consent of the board of trustees, or of the proper officers authorized by such institution or agency to act in matters of adoption; and if such child is a ward of the board of state charities or other state board the secretary of such board shall file a certified copy of the consent given in accordance with its rules.

All such consents to such adoptions shall be acknowledged and witnessed.

Sec. 8027. In any adoption in accordance with section 8026 the provisions of section 8025 shall apply in the matter of consent, so far as applicable.

Sec. 8028. When the petition is filed by a husband and wife, the court shall examine each separate and apart from the other and refuse leave for such adoption unless satisfied from the examination that each petitioner of his or her own free will and accord desires it.

Sec. 8029. If the court, from the testimony, shall be of the opinion that the facts stated in the petition are true, and that the petitioner or petitioners are of good moral character and of reputable standing in the community, and of ability to properly maintain and educate the child sought to be adopted, and that the best interests of the child would be promoted by such adoption, and that such child is found to be suitable for adoption, and is satisfied that all the provisions relative to adoption have been complied with, then the court shall make a decree reciting the facts at length, and the name by which the child shall hereafter be known.

Sec. 8030. The petition, decree and proceedings shall be recorded in a book kept for that purpose and properly

Except when such child is adopted under the provisions of sections 8026 and 8027, upon such decree of adoption the natural parents of the child, if living, shall be divested of all legal rights and obligations due from them to the child or from the child to them; and the child shall be free from all legal obligations of obedience or otherwise to such parents; and the adopting parent or parents of the child shall be invested with every legal right in respect to obedience and maintenance on the part of the child as if said child had been born to them in lawful wedlock; and the child shall be invested with every legal right, privilege, obligation and relation in respect to education, maintenance and the rights of inheritance to real estate, or to the distribution of personal estate on the death of such adopting parent or parents as if born to them in lawful wedlock; provided, such child shall not be capable of inheriting property expressly limited to the heirs of the body of the adopting parent or parents; and provided also, on the death of the adopting parent or parents and the subsequent death of the child so adopted, without issue, the property of such deceased parent or parents shall descend to and be distributed among the next of kin of said parent or parents and not to the next of kin of the adopted child; and provided, also, if such adopting parent or parents shall have other child or children, then the children by birth and adoption shall, respectively, inherit from and through each other as if all had been children of the same parents born in lawful wedlock. Nothing in this act shall be construed as debaring a legally adopted child from inheriting property of its natural parents or other kin.

Residence in home six months before decree.

Sec. 8030-1. No decree of adoption shall be made until such child has resided in the home of the petitioner for at least six months, unless the court for some special reason which shall be entered in the record deems it best to waive this requirement.

Decree may be annulled because of epilepsy, feeble-mindedness, etc.

Sec. 8030-2. If, after its adoption and before it becomes fourteen years of age, a child develops feeble-mindedness, epilepsy, insanity, or venereal disease as a result of conditions existing prior to adoption, and of which the adopting parent had no knowledge or information, a petition setting forth such conditions may be filed in the court which entered the decree of adoption, and if such conditions are proved to the satisfaction of the court, such adoption may be declared null and void. The court shall thereupon make proper disposition of such child by a commitment to an appropriate state institution as provided in the laws of Ohio or refer such child to the juvenile court.

Repeals.

AN ACT

To amend sections 6452, 6468, 6496, 6497 and 6520 of the General Code, relative to the improvement of county and inter-county ditches and declaring an emergency.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 6452, 6468, 6496, 6497 and 6520 of the General Code be amended to read as follows:

Assessment of
cost and ex-
pense when pe-
tition granted.

Sec. 6452. If the board of county commissioners, or the court, finds that an improvement by ditch or drain or other means is necessary and that it will be conducive to the public health, convenience or welfare, it shall grant the petition therefor, either for the line set forth in the petition, or upon one which in their judgment is most feasible to accomplish the object of the petition, and in such case all the cost and expense connected with their proceedings, as well as the cost and expense of construction of the improvement, shall be assessed upon the property affected beneficially by such improvement, including any highways or other public grounds, according to the benefits derived therefrom and in proportion to such benefits. And as a part of such cost and expenses, to be so assessed, there shall be included such portion of the expense of enlarging any waterway through a public highway, or constructing, altering or reconstructing any bridge over such waterway, as may be determined by the county commissioners, or the court, and such portion of such expense shall be paid by the county from its bridge fund.

When and how
assessments
shall be paid.

Sec. 6468. At the time of granting the petition for any improvement under this chapter, the commissioners, or the court, shall determine how long a period of time, in semi-annual installments, as taxes are paid, shall be given to owners of lands benefited to pay the assessments that may be made for such improvement; whether bonds shall be issued and sold in anticipation of the levy and collection of such assessments, or not, and if bonds are to be issued, the rate of interest they shall bear. But if the estimated cost of the improvement, as reported by the county engineer, does not exceed one thousand dollars, not more than two years' time, in four semi-annual installments, shall be given; and no bonds in such case shall be issued or sold unless the county has no funds available in its general ditch improvement fund from which payment in anticipation of collection of assessments can be made. Nor shall more than five years' time, in ten semi-annual installments, be given in any case for any assessments, for benefits for any improvement under this chapter.

If bonds be not issued, but the improvement be paid for from the general ditch improvement fund, there shall be included in any installment when paid, interest on all unpaid installments at the rate of five per cent per annum,

payable semi-annually. And when bonds are issued and sold, interest at the same rate as is borne by such bonds, shall in like manner be included in the assessment for their redemption, and paid semi-annually with the current installment of assessment.

Sec. 6496. The board of county commissioners is empowered and authorized to issue the bonds of the county in anticipation of the levy and collection of assessments under this chapter. In any case where the county commissioners have determined to issue and sell bonds in anticipation of the levy and collection of assessments for benefits or any portion thereof, they shall so declare by resolution and fix the rate of interest such bonds shall bear, dates of maturity, and denomination and number of bonds. Such bonds shall express upon their face the purpose for which they are issued, with the date of the resolution authorizing the issue, the rate of interest, which shall not exceed six per cent per annum payable semi-annually, the date of maturity, the name and number of the improvement for which they are issued, and any other proper descriptive matter. They may be made subject to registration and have proper interest coupons attached thereto.

Resolution to
sell bonds in
anticipation of
assessments.

The bonds upon issue shall be signed by the chairman of the board of county commissioners and countersigned by the auditor; interest coupons if attached thereto shall be authenticated by the signature of the county auditor, written or lithographed thereon.

How bonds
signed.

Said bonds may, at the option of the board of county commissioners, be sold upon popular subscription for par and accrued interest in any quantities without advertising, or may at such value be paid to any contractor upon accepted work and material or may be sold as provided by sections 2294 and 2295 of the General Code.

Sale of bonds.

Sec. 6497. Bonds issued by boards of county commissioners under authority of this chapter in anticipation of the levy and collection of special assessments against the property to be benefited by the improvement, shall be full, general obligations of the county issuing such bonds, for the payment of the principal and interest of which, when due, the full faith, credit and revenues of such county shall be pledged. The county commissioners shall, prior to the issuance of such bonds, provide for the levying of a tax upon all the taxable property of the county to cover any deficiency in the levy, payment or collection of such special assessments, or of interest thereon.

Tax levy to
cover any
deficiency.

Sec. 6520. If the joint board of county commissioners finds that an improvement by ditch or drain or other means is necessary and that it will be conducive to the public health, convenience or welfare, it shall grant the petition therefor, either for the line set forth in the petition, or upon one which in its judgment is more feasible to accomplish the object of the petition. If a petition is granted by a joint board of county commissioners, such

board shall proceed under the provisions of this act for single boards of county commissioners to complete necessary surveys, schedules and records, make award of damages to property or compensation for property taken, and ascertain the entire cost of the joint county improvement.

SECTION 2. That original sections 6452, 6468, 6496, 6497 and 6520 of the General Code be, and the same are hereby repealed.

Law applies to
pending pro-
ceedings.

SECTION 3. This act shall apply to proceedings now pending under "An act to codify, consolidate and clarify the ditch laws of the state" appearing in 108 Ohio Laws, Part I, at pages 926 and following. Boards of county commissioners and courts before whom such proceedings are pending are authorized to correct such proceedings to conform to this act, and when such proceedings are so corrected they shall be held and deemed to be valid in all respects, and any assessments made thereunder shall be valid, and any bonds issued thereunder shall be full and valid obligations of the county.

Emergency law.

SECTION 4. This act is hereby declared to be an emergency law necessary for the immediate preservation of the public health and safety, for the reason that an opinion of the attorney general that the ditch code enacted in 1919 was unconstitutional has had the effect of holding up all pending and prospective ditch improvements, in many cases assessments have been made, bonds have been issued which cannot be sold and counties are suffering great financial loss, and such condition must be remedied at the earliest possible moment. Therefore, this act shall go into immediate effect.

appoint a ditch supervisor for any ditch or any township who shall serve for a term of one year or until his successor is appointed or qualified. No person shall be so appointed unless he be a resident and freeholder of the township for which he is appointed, and he may be removed by the county commissioners at any time for cause. Such supervisor shall receive such per diem compensation not to exceed three dollars per day for time actually employed on ditch work as the county commissioners may determine, to be paid by the county commissioners from the general ditch improvement fund, upon presentation of an itemized account verified upon oath by the ditch supervisor. When actually engaged in measuring a ditch or ditches the supervisor shall be allowed one assistant who shall receive such per diem compensation not to exceed two dollars fifty cents per day as the county commissioners may determine for the time actually employed, and shall be paid by the commissioners from the general ditch improvement fund, upon the certificate of the ditch supervisor. The ditch supervisor shall have supervision of all existing ditches or parts thereof in his township; he shall clean them out, keep them in repair as provided by law, and shall perform such other duties as are imposed upon him by law. The ditch supervisor shall annually report to the county commissioners his doings, including work done by him on ditches, moneys collected by him, and the condition of each ditch, the number of acres drained thereby, and the necessity for any other or further improvements thereon. Such report shall be made by the supervisor between the fifteenth and thirty-first days of December of each year. No part of the compensation of the supervisor or his assistant shall be assessed against lands or property, or constitute a charge against the owners of affected lands as such.

Sec. 6506. For the cleaning and keeping in repair of ditches, the ditch supervisor or supervisors for the township or townships through which such ditch runs, shall divide them into working sections and apportion such sections to the land owners, corporate roads, railroads, township, boards of education, municipalities and county according to the benefits received, and shall upon completion notify such owners in writing of the apportionment made to them respectively. Owners of land not contiguous to the ditch, but the water from whose lands is carried into it by means of tile or by passing over the lands of others, must assist in cleaning and keeping such ditch in repair, and all working sections allotted to each owner shall be on or as near as practicable to his premises. The county surveyor shall, if the ditch supervisor so requests, and if so ordered by the county commissioners, cooperate with the ditch supervisor in making the apportionment and constructing the work herein provided. When an established ditch or water course is located in two or more townships, the several supervisors for the townships

in which such improvement is located shall jointly make the apportionment. When the apportionment is confirmed, the ditch supervisor within ten days thereafter shall notify in writing each of the lot and land owners, corporate roads, railroads, township, board of education, municipality and county to whom a portion is allotted of the portion assigned them respectively, and of the date for the completion of the cleaning out thereof. Each owner, corporate road, railroad, township, board of education, municipality and county so notified shall clean the portion or section of the ditch or water course as fixed by such apportionment, or if changed by the county commissioners, as fixed by them, to its full depth and capacity as originally constructed, and when necessary, reclean such portion without further notice. The parties to whom a section is allotted shall mark the terminus of their respective working sections by planting a substantial post or marker on which shall be cut or painted the number of the section. Any party to whom an apportionment is made, may within ten days after being notified of his apportionment by the ditch supervisor, file a protest against his apportionment with the board of county commissioners; and the board of county commissioners shall within ten days after the expiration of the ten day period fixed for the filing of protests, consider all protests and make any change in the apportionment which they deem just and proper. They shall confirm the apportionment as fixed by them, or if there be no protests, as made by the supervisor.

When work shall be let to lowest bidder; apportionment of cost.

Award of contract; cost apportioned upon land.

Sec. 6507. If the parties to whom such sections are allotted neglect or refuse within the time set by the supervisor to clean or keep them in repair, the ditch supervisor shall sell the work of cleaning them to the lowest responsible bidder and take bond with surety to the approval of the supervisor for the faithful completion of the work. Payment to the contractor shall be made out of the general ditch improvement fund. If the whole or any part of the cost of said work is for part of a ditch apportioned to the county, then the county auditor shall present a bill for the same to the county commissioners, and they shall order the amount paid out of the general county fund. If the cost of cleaning and repair as estimated by the ditch supervisor exceeds the sum of two hundred dollars, then before awarding a contract, the ditch supervisor shall give notice of receiving bids by publication one time in one newspaper of general circulation in the county wherein the work, or part thereof, is to be done, such notice to be inserted at least one week before the time fixed for the receipt of bids. If the estimated cost is less than two hundred dollars, then the supervisor shall give notice of the letting of the contract by posting in three public places in the township or townships where the work, or part thereof, is to be done, such posting to be made at least one week before the date fixed for receipt of bids. If the

estimated cost is under one hundred dollars, then the ditch supervisor may at his option award a contract without advertisement or may proceed himself with the award of a contract by employing the necessary teams and labor and purchasing the necessary material for the completion of the work, paying the cost out of the general ditch improvement fund. Upon completion, whether by contract or otherwise, the supervisor shall certify the cost to the county auditor. Such cost shall be a lien upon the land to which apportionment was made, and upon certification by the supervisor shall be placed by the auditor upon the tax duplicate to be collected as other taxes, either in a lump sum or in two installments at the discretion of the county commissioners. In the event of proceeding by contract, the supervisor shall make separate contracts as to each working section. The supervisor is authorized to proceed under the provisions of this section and of section 6506 at any time he finds that cleaning out or repair is necessary as to any working section.

Sec. 6508. Any owner, corporate road, railroad, township, municipality or board of education may appeal to the court of common pleas from an order of the board of county commissioners fixing an apportionment for cleaning out and repair, and the provisions of sections 6474 to 6476 shall so far as applicable be followed in taking such appeal; provided that a township, municipality or board of education shall not be required to give bond in order to perfect such appeal. The common pleas court in hearing such appeal shall sit as a court of equity without the intervention of a jury, and the order made by the common pleas court upon such appeal shall be final.

AN ACT

To re-enact section 7629 of the General Code and to amend section 7630 of the General Code, relative to the issuing of bonds by boards of education, and declaring an emergency.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That section 7629 of the General Code be re-enacted and section 7630 be amended, to read as follows:

Issue of bonds
by boards of
education.

Sec. 7629. The board of education of any school district may issue bonds to obtain or improve public school property, and in anticipation of income from taxes, for such purposes, levied or to be levied, from time to time, as occasion requires, may issue and sell bonds, under the restrictions and bearing a rate of interest specified in sections seventy-six hundred and twenty-six and seventy-six hundred and twenty-seven. The board shall pay such bonds and the interest thereon when due, but provide that no greater amount of bonds be issued in any year than would equal the aggregate of a tax at the rate of two mills, for the year next preceding such issue. The order to issue bonds shall be made only at a regular meeting of the board and by a vote of two-thirds of its full membership, taken by yeas and nays and entered upon its journal.

Limitation of
issue; tax levy.

Sec. 7630. In no case shall a board of education issue bonds under the provisions of the next preceding section in a greater amount than can be provided for and paid with the tax levy authorized by law and subject to limitations on the combined maximum rate for all taxes in force at the date of issue. The board shall provide, subject to said limitations, for the levy of a sufficient tax for interest and sinking fund or retirement purposes in the resolution authorizing the issue. The amount of such bonds outstanding at any time shall not exceed one and one-half per cent of the tax duplicate of the district.

Prior issues
valid.

All bonds heretofore issued or authorized to be issued by any board of education under authority of next preceding section, for a lawful purpose, which have been or shall be sold for not less than par and accrued interest and the proceeds thereof have been or shall be paid into the treasury, shall be held to be legal, valid and binding obligations of the school district and the board of education thereof.

SECTION 2. That original section 7630 of the General Code be, and the same is hereby repealed.

Emergency law.

SECTION 3. This act is hereby declared to be an emergency law necessary for the immediate preservation of the public peace, health and safety. The reason for such necessity lies in the fact that doubts exist in relation to the sections amended by this act, making it impossible to sell bonds to provide prompt and urgent relief in rapidly

Sec. 7761. The superintendent of public instruction shall at the close of each school year require from each board of education of a school district, conducting such schools for deaf, blind and crippled persons a financial statement showing expenditures during the preceding school year for special appliances and for the excess of current operating cost of such pupils above the current operating cost of the education of an equal number of pupils of normal needs of the same school grades in the same school district for the same period of time during said school year.

The cost of such investigation shall be charged to the current operating cost of the school for the blind. The superintendent of public instruction shall prescribe minimum standard requirements concerning the extent of such co-operation and the general methods of such investigation.

Valid excuse
from attendance
required; how
determined.

Sec. 7763-5. In the case of a blind, partially blind, deaf or crippled child or a child of defective mentality an excuse granted under section 7763 or 7763-4, General Code, on the ground of bodily or mental condition shall not be a valid excuse from attendance by the child upon a day school for the blind, deaf, crippled or those of defective mentality or from attendance at a state institution for the care and instruction of the blind, deaf, crippled or those of defective mentality unless in the case of a day school there are factors in the child's condition or the means of reaching the school which make attendance at such a special class impracticable. If there is a day school for children handicapped in one of the above respects in the school district, or in another district and transportation to such class by school conveyance or common carrier is provided by a board of education or other agency, the superintendent of schools shall be the judge of the practicability of the child's attendance at such school adapted to the needs of children handicapped in the particular respect.

AN ACT

To amend sections 8728-1, 8728-2, 8728-4, 8728-6 and 8728-11 of the General Code, relating to the formation and organization of corporations with common stock without par value.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 8728-1, 8728-2, 8728-4, 8728-6 and 8728-11, of the General Code, be amended to read as follows:

Sec. 8728-1. The articles of incorporation of any corporation for profit under the laws of this state, except banking, safe deposit, trust and insurance corporations, or a corporation under the jurisdiction of the public utilities commission, may provide for the issuance of shares of common stock without any nominal or par value, by stating in such articles:

Common stock without par value authorized; exceptions.

(a) The total number of authorized shares which may be issued by the corporation, and the classes, if any, into which such shares are divided, the number of shares of each class and, if any of such shares be preferred stock, the terms and provisions thereof and the amount of each share thereof, which shall be five dollars or some multiple of five dollars, but not more than one hundred dollars.

Statements required in articles.

(b) The amount of common capital with which the corporation will begin to carry on business, which shall not be less than \$500.00.

Such statements in the articles of incorporation shall be in lieu of any statements required by law to be stated in the articles of incorporation as to the amount of the

capital stock, and the number of shares into which the same shall be divided, and the par value of such shares.

Filing fee.

The secretary of state shall charge and collect for filing such articles of incorporation a fee of five cents on each share of common stock authorized in the articles to be issued without any nominal or par value, and in addition thereto a fee of one-tenth of one per cent of the par value of the preferred stock authorized in the articles, but in no case shall the aggregate amount to be paid to the secretary of state be less than \$25.00, and upon any increase of authorized capital stock, either common or preferred, or both, such fees shall be charged and collected by the secretary of state.

Number of shares outstanding.

At no time shall the number of shares of preferred stock outstanding be more than two-thirds of the total number of shares, common and preferred, outstanding.

What each share shall show.

Each share of such common stock, without nominal or par value, shall be equal to every other share of such stock, except that the articles of incorporation may provide that such stock shall be divided into different classes, with such designation and voting powers or restrictions or qualifications thereof as shall be stated therein, but all such stock shall be subject to the preferences given to the preferred stock, if any, authorized to be issued. Every certificate for such shares without nominal or par value shall have plainly written or printed upon its face the number of such shares which it represents and the number of such shares which the corporation is authorized to issue, and no such certificate shall express any nominal or par value of such shares.

Opening books of subscription; sale of shares; payment of dividends in shares, cash, etc.

Such corporation may receive subscriptions for, and issue and sell its preferred shares, as authorized by law. At the time of opening books of subscription to the capital stock, as required by law, subscriptions may be received for the common shares, without nominal or par value, for such consideration as may be decided upon by a majority of the incorporators at the time of ordering books to be opened for subscription; thereafter, subject to the provisions of section 8699, the corporation may issue and sell its said common shares, from time to time, for such consideration as shall be the fair value of such shares, as fixed by its board of directors, or for such consideration as shall be consented to in writing by the holders of all the outstanding shares of common stock, or for such consideration as shall be fixed by the vote of a majority in number of the outstanding common shares at a meeting called for that purpose in such manner as shall be prescribed by the code of regulations. Nothing herein shall prevent a corporation from paying dividends, subject to the limitations of this act, payable in common stock of the company at a price fixed by the board of directors instead of in cash or property. Any and all shares issued as permitted by this section shall be deemed fully paid and non-assessable

and the holder of such shares shall not be liable to the corporation or to its creditors in respect thereof.

Sec. 8728-2. When not less than five persons have subscribed for at least one share each of the capital stock, and paid ten per cent on each share subscribed for, the incorporators or a majority of them shall in lieu of the provisions of section 8633 at once so certify in writing to the secretary of state. As soon as such certificate is filed, the signers thereto and the stockholders shall proceed as provided in sections 8635 and 8636.

When corporation may begin business.

No corporation formed pursuant to this act shall begin to carry on business or shall incur any debts until the amount of common capital stated in its articles of incorporation, shall have been fully paid to the corporation in money or in property taken at its actual value; and a certificate to that effect signed and acknowledged by at least a majority of the directors, before an officer authorized to administer oaths, shall be filed with the secretary of state, who shall charge and collect therefor a fee of \$5.00. The rights of creditors and persons dealing with such corporation, without knowledge of the failure of the corporation to have complied with the foregoing provisions, shall not be affected thereby, but the directors of the corporation assenting to the creation of any debt in violation of this action shall be liable jointly and severally for such debt; but no action shall be brought under the foregoing provisions of this section unless, within one year after the debt shall have been incurred, the creditor shall have served upon the assenting director or directors written notice of intention to hold him or them personally liable for such debts. Any director who, because of any such liability under this section, shall pay any debt of the corporation, shall be subrogated to all rights of the creditor in respect thereof against the corporation and its property, and also shall be entitled to contribution from all other directors of the corporation similarly liable for the same debt, and the personal representative of any such director who shall have died before making such contribution.

Rights of creditors and others; limitation of actions.

No such corporation shall declare or pay any dividends except from surplus profits arising from its business. In case any dividend shall be declared or paid in violation hereof, the directors in whose administration the same shall have been declared or paid, except those who may have caused their dissent therefrom to be entered upon the minutes of such directors at the time, or who were not present when such action was taken shall be liable jointly and severally to such corporation or a creditor thereof, to the full amount of any loss sustained by such corporation or creditors respectively by reason of such dividend.

Payment of dividends.

The preferred stock, if any be issued, shall not be redeemed by the corporation if thereby the property and assets of the corporation will be reduced below the amount stated in the articles of incorporation or any amendment

When preferred stock may be redeemed.

thereof, as the common capital with which the corporation will begin to carry on business; nor shall such preferred stock be redeemed, if thereby the property and assets of the corporation will be reduced below the amount of its outstanding debts and liabilities.

Not subject to certain limitations on borrowing capacity.

Corporations formed or reorganized pursuant to this act shall not be subject to the limitations on borrowing capacity provided for by section 8705.

Increase or reduction of stock; fee.

Sec. 8728-4. Any corporation formed or re-organized so as to have common stock without par value may increase the amount of its stated common capital, or may reduce the same to not less than five hundred dollars, or may reduce the number of its authorized common shares, or may provide for preferred stock, or may amend its articles of incorporation or certificate of reorganization so as to accomplish any of the purposes authorized by section 8719 that are not inconsistent with any of the other provisions of this act, in the manner and in accordance with sections 8719 and 8723, inclusive, of the General Code, or may reduce the number of its authorized preferred shares as provided in section 8700 of the General Code and a charge of five dollars shall be made for such amendment or reduction. The secretary of state shall charge and collect for filing a certificate of amendment changing unissued common stock to preferred stock, a fee of one-tenth of one per cent of the par value of said preferred stock, less the fees theretofore paid upon the shares of common stock so changed, but not less than five dollars to be charged in any such case, and for filing every other certificate of amendment the fees provided by law for filing certificates of amendments.

Corporations formed or re-organized pursuant to this act may increase the total number of authorized shares in the manner provided by sections 8698 and 8699 of the General Code.

When and how amendment can be made.

An amendment cannot be made under this section unless as so amended the articles of incorporation could lawfully have been originally filed under this act. In case of a reduction of the amount of common capital of a corporation, a certificate setting forth the whole amount of the ascertained debts and liabilities of the corporation shall be made, signed and verified by the president or vice president, and by the secretary or treasurer of the corporation, and filed with the certificate of amendment; and such certificate of debts and liabilities shall have endorsed thereon the certificate of the commissioner of securities that he has received satisfactory proof that the reduced amount of capital is sufficient for the proper purpose of the corporation and that said corporation has tangible assets equal to or in excess of its ascertained debts and liabilities and the amount of said common capital as reduced, and also the par value of its preferred stock, if any, then outstanding.

Sec. 8728-6. If the amount of common capital, stated in the certificate of re-organization as that with which the re-organized corporation will begin to carry on business, be less than the total amount of the par value of the previously issued and outstanding common capital stock, there shall be annexed to such certificate an affidavit of the president or vice president and the secretary or treasurer of the corporation, setting forth the whole amount of the ascertained debts and liabilities of the corporation; and, in such case, the certificate of reorganization shall have endorsed thereon the approval of the commissioner of securities to the effect that he has received proof satisfactory to him that the amount of common capital stated in the certificate of reorganization as that with which the reorganized corporation will begin to carry on business is sufficient for the proper purposes of the corporation, and that said corporation has tangible assets equal to or in excess of its ascertained debts and liabilities and the amount of said common capital as stated in the certificate of reorganization, and also, the par value of its preferred stock, if any, then outstanding, or to be issued in exchange for outstanding stock as provided in said certificate.

When affidavit as to debts and liabilities required; endorsement of commissioner.

Sec. 8728-11. The amount of fees payable under section 5498 by a corporation formed or re-organized so as to have common stock without par value shall be three-twentieths of one percent upon its subscribed or issued and outstanding preferred stock, plus five cents for each share of common stock, without par value, subscribed or issued and outstanding, but not less than ten dollars in any case.

Amount of fees payable.

The amount of fees payable by a foreign corporation having common stock without par value under section 180 shall be the fees therein provided as to the authorized preferred stock, and five cents per share for the authorized common stock without par value, but such fees shall not be less than fifteen dollars nor more than fifty dollars. The amount of fees payable by such a foreign corporation under section 184 shall be one-tenth of one percent upon the proportion of authorized preferred stock represented by property owned and used and business transacted in this state, and five cents per share upon the proportion of the number of shares of authorized common stock, represented by property owned and used and business transacted in this state, but not less than ten dollars in any case; and the fee payable under section 185 by such corporations shall be determined in the same manner, but not less than ten dollars in any case; and under section 5503 shall be three-twentieths of one per cent upon the proportion of the authorized preferred stock represented by property owned and used and business transacted in this state and five cents per share upon the proportion of the number of shares of authorized common stock, represented by property owned and used and

business transacted in this state, but not less than ten dollars in any case.

Repeals.

SECTION 2. That said original sections 8728-1, 8728-2, 8728-4, 8728-6 and 8728-11 of the General Code, be and the same are hereby repealed.

SECTION 2. For the payment of such obligations there is hereby appropriated from the state highway improvement fund the sum of three hundred and eighty thousand dollars.

SECTION 3. The moneys hereby appropriated shall be available for and shall be used to reimburse only those persons, firms and corporations, who, on the said twenty-ninth day of July, nineteen hundred and twenty, had uncompleted contracts with the state of Ohio for the construction, improvement, maintenance or repair of a section or portion of an inter-county highway or main market road within the state, or who had prior to such date filed bids for such work, which bids had been opened, and upon which bids contracts were thereafter let, and such contractors shall be reimbursed from the moneys hereby appropriated only to the extent of any increased or extra freight charges paid by them under and by virtue of the terms of said decisions and orders of the Inter-state Commerce Commission and the Public Utilities Commission of Ohio hereinbefore described. Where anything required to be done or furnished in connection with any such contract has been or shall be performed or furnished by a person, firm or corporation other than the principal contractor, and under and by virtue of a contract entered into by such other person, firm or corporation with the principal contractor prior to the twenty-ninth day of July, nineteen hundred and twenty, such other person, firm or corporation shall be held to be a contractor within the terms of this act and proof of claim shall be made by and payment made directly to him or it, provided he or it be required by the terms of such contract to pay in the performance thereof extra or added freight charges under said decisions and orders of the Interstate Commerce Commission and the Public Utilities Commission of Ohio hereinbefore described.

The state highway commissioner shall immediately after such date carefully examine all such claims and the proof offered in support thereof and shall allow thereon such amount as is found by him to be due under the terms of this act. The amount to be allowed to each contractor shall be determined by computing the freight charges which such contractor would have been required to pay on such materials at the rate in force and effect on said twenty-ninth day of July, nineteen hundred and twenty, and subtracting the amount of such freight charges so computed from the amount of freight charges actually paid on such materials by such contractor under and by virtue of the terms of said decisions and orders of the Interstate Commerce Commission and the Public Utilities Commission of Ohio hereinbefore described, and the balance or remainder shall constitute the amount to be allowed. Upon completing his examination of the claims filed, the state highway commissioner shall transmit the same, together with his report as to the amounts found due thereon, to the sundry claims board, which board shall thereupon examine such claims and the report of the state highway commissioner in reference thereto and which board may require additional proof as to any of such claims and shall allow such amounts thereon as are found to be due. AN ACT

To amend sections 7730 and 7731 of the General Code and to add supplemental sections 7731-2, 7731-3, 7731-4, 7749-1 and 7749-2 to the General Code, relating to the suspension of schools, the transportation of pupils, or the boarding of pupils in lieu thereof.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 7730 and 7731 of the General Code be amended and that supplemental sections 7731-2, 7731-3, 7731-4, 7749-1 and 7749-2 be added to the General Code, to read as follows:

When rural or village school may be suspended; transfer and conveyance of pupils; notice of suspension.

Sec. 7730. The board of education of any rural or village school district may suspend by resolution temporarily or permanently any school in such district because of disadvantageous location or any other cause, and teachers' contracts shall thereby be terminated after such suspension. Whenever the average daily attendance of any school in the school district for the preceding school year has been below ten the county board of education may, before the first day of August, direct the suspension and thereupon the board of education of the village or rural school district shall suspend such school. Whenever any school is suspended the board of education of the district shall at once provide for the assignment of the pupils residing within the territory of the suspended school to such other school or schools as may be named by the said board of education. Upon such suspension the board of education in authority over such village or rural school shall provide for the transportation of all pupils so assigned who reside in the territory of the suspended school and who live more than two miles by the nearest traveled highway from the school to which they have been assigned, to a public school in the rural or village district or to a public school in another district, except when in the judgment of such board of education confirmed by the judgment of the county board of education such transportation is unnecessary.

Ten days' notice of such suspension shall be posted in five conspicuous places within such village or rural school district by the board of education after the resolution providing for such suspension is adopted. Wherever such suspension is had on the direction of the county board of education then upon the direction of such county board, or upon the finding by the board of education ordering such suspension that such school ought to be re-established, such school shall be re-established.

How school may be re-established.

Upon petition filed with a local board of education between May 1 and August 1 of any year signed by the parents or guardians of twelve children between seven and fifteen years of age, living in the district and enrolled in school, whose residences are nearer to a certain school which has been suspended than to any other school of the district,

asking that such suspended school be reopened, the local board of education shall reopen such school for the ensuing school year provided there is a suitable school building in the territory of such suspended school as it existed prior to suspension.

Sec. 7731. In all city, exempted village, rural and village school districts where resident elementary school pupils live more than two miles from the school to which they are assigned the board of education shall provide transportation for such pupils to and from such school except when in the judgment of such board of education, confirmed, in the case of a school district of the county school district, by the judgment of the county board of education, or, in the case of a city or exempted village school district, by the judgment of the probate judge, such transportation is unnecessary. The transportation for pupils living less than two miles from the school house by the nearest practicable route for travel accessible to such pupils and the transportation of pupils who are pursuing high school branches shall be optional with the board of education, except as provided in section 7749, General Code.

When board shall provide transportation.

When transportation of pupils is provided the conveyance shall be run on a time schedule that shall be adopted and put in force by the board of education not later than ten days after the beginning of the school term and it must pass within one-half mile of the residence of such pupils or the private entrance thereto. When local boards of education neglect or refuse to provide transportation for pupils the county board of education shall provide such transportation and the cost thereof shall be paid as provided in section 7610-1, General Code.

Time schedule of conveyance.

Sec. 7731-2. It shall be the duty of the driver in charge of a vehicle engaged in the transportation of children to bring the vehicle to a full stop before crossing the tracks of any railroad or interurban electric line and not proceed across such tracks until absolutely certain that no car or train is approaching from either direction.

Vehicle shall be brought to full stop before crossing railroad.

The vehicle shall be of such construction as to afford the driver thereof a practically unobstructed view of the roadway ahead, and also to his right and left.

Sec. 7731-3. When transportation is furnished in city, rural or village school districts no one shall be employed as driver of a school wagon or motor van who has not given satisfactory and sufficient bond and who has not received a certificate from the county board of education of the county in which he is to be employed or in a city district, from the superintendent of schools certifying that such person is at least eighteen years of age and is of good moral character and is qualified for such position. Provided, however, that a county board of education may grant such certificate to a boy who is at least sixteen years of age and who is attending high school. Any certificate may be revoked by the authority granting same on proof

Qualifications of driver of vehicle; bond.

that the holder thereof has been guilty of improper conduct or of neglect of duty and the said driver's contract shall be thereby terminated and rendered null and void.

When parent, etc., may be employed to convey child or children; compensation.

Sec. 7731-4. If a local board deems the transportation of certain children to school by school conveyance impracticable and is unable to secure what is deemed a reasonable offer for the transportation of such children the local board shall so report to the county board of education. If the county board of education deems such transportation by school conveyance practicable or the offers reasonable they shall so inform the local board and transportation shall be provided by such local board. If, however, the county board of education agrees with the view of the local board it shall be deemed compliance with the provisions of sections 7730 and 7731, General Code, by such local board if such board agrees to pay the parent or other person in charge of the child or children for the transportation of such child or children to school the following amounts for each day of actual transportation:

For one child in family transported not more than three miles, seventy-five cents.

For one child in family transported more than three and not more than four miles, one dollar.

For one child in family transported more than four miles, one dollar and fifty cents.

For each additional child in a family, in every case, twenty-five cents.

For transportation to school only or from school only one-half of the above amounts.

Accurate days of attendance kept by teacher.

It shall be the duty of the teacher or teachers in charge of such children to keep an accurate account of the days they are transported to and from school. A failure of a parent or guardian to arrange to have his child transported to school, or his failure to have the child attend on the ground that the transportation is not supplied cannot be plead as an excuse for the failure of such parent or guardian to send such child to school or for the failure of the child to attend school.

Board may provide transportation to high school in another district.

Sec. 7749-1. The board of education of any village or wholly centralized rural school district may provide transportation to a high school in another district if none is maintained in the given district, or to a high school in another district of higher grade than the one maintained in the given district, for such children resident of the district as are entitled to have their tuition in high school paid by the given board of education.

When board may furnish the cost of child's room and board.

Sec. 7749-2. A board of education in a district which does not maintain a high school and which pays the tuition of a child resident of the district in a high school in another district, or a board of education which pays the tuition of a child resident of the district in a high school in another district of higher grade than that maintained in the given district may furnish the cost of such child's room and board while attending such school or a

part of such cost, provided such amount is less than the cost of transportation of such child and provided such action is approved by the county board of education.

To amend sections 1465-69, 1465-80, 1465-81, 1465-82, 1465-90 of the General Code, relating to workmen's compensation.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 1465-69, 1465-80, 1465-81, 1465-82 and 1465-90 of the General Code be amended to read as follows:

Sec. 1465-69. Except as hereinafter provided, every employer mentioned in subdivision 2 of section 1465-60, General Code, shall, in the month of January, 1914, and semi-annually thereafter, pay into the state insurance fund the amount of premium determined and fixed by the industrial commission of Ohio for the employment or occupation of such employer the amount of which premium to be so paid by each such employer to be determined by the classifications, rules and rates made and published by said commission; and such employer shall semi-annually thereafter pay such further sum of money into the state insurance fund as may be ascertained to be due from him by applying the rules of said commission, and a receipt or certificate certifying that such payment has been made shall immediately be mailed to such employer by the industrial commission of Ohio, which receipt or certificate, attested by the seal of said commission shall be prima facie evidence of the payment of such premium.

Payments semi-annually by employer to state insurance fund.

Provided, however, that as to all employers who were subscribers to the state insurance fund prior to January 1st, 1914, or who may first become subscribers to said fund in any other month than January or July, the foregoing provisions for the payments of such premiums in

the month of January, 1914, and semi-annually thereafter shall not apply, but such semi-annual premiums shall be paid by such employers from time to time upon the expiration of the respective periods for which payments into the fund have been made by them. And provided further, that such employers who will abide by the rules of the industrial commission of Ohio and as may be of sufficient financial ability to render certain the payment of compensation to injured employes or the dependents of killed employes, and the furnishing of medical, surgical, nursing and hospital attention and services and medicines, and funeral expenses equal to or greater than is provided for in sections 1465-78 to 1465-89, General Code, and who do not desire to insure the payment thereof or indemnify themselves against loss sustained by the direct payment thereof, may, upon a finding of such fact by the industrial commission of Ohio, elect to pay individually such compensation, and furnish such medical, surgical, nursing and hospital services and attention and funeral expenses directly to such injured or the dependents of such killed employes; and the industrial commission of Ohio may require such security or bond from said employers as it may deem proper, adequate and sufficient to compel, or secure to such injured employes, or to the dependents of such employes as may be killed, the payment of the compensation and expenses herein provided for, which shall in no event be less than that paid or furnished out of the state insurance fund, in similar cases, to injured employes or to dependents of killed employes, whose employers contribute to said fund, except when an employee of such employer, who has suffered the loss of a hand, arm, foot, leg, or eye, prior to the injury for which compensation is to be paid, and thereafter suffers the loss of any other of said members as the result of any injury sustained in the course of and arising out of his employment, the compensation to be paid by such employer shall be limited to the disability suffered in the subsequent injury, additional compensation, if any, to be paid by the industrial commission of Ohio, out of the surplus created by section 1465-54 of the General Code. Should municipal or other bonds be accepted by said commission as security for said payments, such bonds shall be deposited with the treasurer of state, whose duty it shall be to have custody thereof and to retain the same in his possession according to the conditions prescribed by the order of said commission accepting the same as security, and said treasurer shall retain possession of said bonds until such time as he may be directed by said commission as to the mode and manner of his disposition of the same; and said commission shall make and publish rules and regulations governing the mode and manner of making application and the nature and extent of the proof required to justify such finding of fact by said commission as to permit such election by such employers, which rules and

regulations shall be general in their application, one of which rules shall provide that all employers, electing directly to compensate their injured and the dependents of their killed employes as hereinbefore provided, shall pay into the state insurance fund such amount or amounts as are required to be credited to the surplus in paragraph No. 2 of section 1465-54, General Code. The industrial commission of Ohio may at any time change or modify its findings of fact herein provided for, or revoke the right of such employer to pay compensation direct, if in its judgment such action is necessary or desirable to secure or assure a strict compliance with all the provisions of the law in reference to the payment of compensation and the furnishing of medical, nurse, and hospital services and medicines and funeral expenses to injured and the dependents of killed employes.

Sec. 1465-80. In case of injury resulting in partial disability, the employe shall receive sixty-six and two-thirds per cent of the impairment of his earning capacity during the continuance thereof, not to exceed a maximum of fifteen dollars per week, nor a greater sum in the aggregate than thirty-seven hundred and fifty dollars, and such compensation shall be in addition to the compensation allowed to the claimant for the period of temporary total disability resulting from such injury. In cases included in the following schedule, the disability in each case shall be deemed to continue for the period specified and the compensation so paid for such injury shall be as specified herein, and shall be in addition to the compensation allowed to the claimant for the period of temporary total disability resulting from such injury, to-wit:

For the loss of a fourth finger, commonly known as the little finger, $66\frac{2}{3}\%$ of the average weekly wages during fifteen weeks.

The loss of the middle, or second phalange, of any finger, shall be considered to be equal to the loss of two-thirds of such finger.

The loss of more than the middle and distal phalanges of any finger shall be considered to be equal to the loss of the whole finger; provided, however, that in no case will the amount received for more than one finger exceed the amount provided in this schedule for the loss of a hand.

For the loss of the metacarpal bone (bones of palm) for the corresponding thumb, finger or fingers as above, add ten weeks to the number of weeks as above.

For ankylosis (total stiffness of) or contractures (due to scars or injuries) which makes any of the fingers, thumbs or parts of either more than useless, the same number of weeks shall apply to such members or parts thereof as given above.

For the loss of an eye, $66\frac{2}{3}\%$ of the average weekly wages for one hundred weeks.

For the permanent partial loss of sight of an eye, $66\frac{2}{3}\%$ of the average weekly wages for such portion of one hundred weeks as the commission may, in each case determine, based upon the percentage of vision actually lost as a result of the casualty, but in no case shall an award of compensation be made for less than a 25% loss of vision.

In case an injury results in serious facial or head disfigurement which impairs the opportunities to secure or retain employment, the industrial commission of Ohio may in its discretion, make such award of compensation as it may deem proper and equitable, in view of the nature of the disfigurement and not to exceed the sum of thirty-seven hundred and fifty dollars.

The amounts specified in this clause are all subject to the limitation as to the maximum weekly amount payable as hereinbefore specified in this section.

Sec. 1465-81. In cases of permanent total disability, the award shall be sixty-six and two-thirds percent of the average weekly wages and shall continue until the death of such person so totally disabled, but not to exceed a maximum of fifteen dollars per week and not less than a

Sec. 1465-82. In case the injury causes death within the period of two years, the benefits shall be in the amount and to the persons following:

Benefits in
case of death.

1. If there be no dependents, the disbursements from the state insurance fund shall be limited to the expenses provided for in section forty-two hereof.

2. If there are wholly dependent persons at the time of the death, the payment shall be sixty-six and two-thirds percent of the average weekly wages, not to exceed fifteen dollars per week in any case and to continue for the remainder of the period between the date of the death and eight years after the date of the injury, and not to amount to more than a maximum of five thousand dollars, nor less than a minimum of two thousand dollars.

3. If there are partly dependent persons at the time of the death the payment shall be sixty-six and two-thirds per cent of the average weekly wages, not to exceed fifteen dollars per week in any case, and to continue for all or such portion of the period of eight years after the date of the injury, as the commission in each case may determine, and not to amount to more than a maximum of five thousand dollars.

4. In cases in which compensation on account of the injury has been continuous to the time of the death of the injured person, and the death is the result of such original injury, compensation shall be paid for such death as though same had occurred within the two years hereinbefore provided, deducting from the final award therefor the total amount theretofore paid on account of total or partial disability on account of such injury.

5. The following persons shall be presumed to be wholly dependent for support upon a deceased employee:

(A) A wife upon a husband with whom she lives at the time of his death.

In all other cases, the question of dependency, in whole or in part, shall be determined in accordance with the facts in each particular case existing at the time of the injury resulting in the death of such employee, but no

person shall be considered as dependent unless a member of the family of the deceased employe, or bears to him the relation of husband, or widow, lineal descendant, ancestor or brother or sister. The word "child" as used in this act shall include a posthumous child, and a child legally adopted prior to the injury.

Power of commission to hear and determine questions; appeal in certain cases.

Sec. 1465-90. The commission shall have full power and authority to hear and determine all questions within its jurisdiction, and its decision thereon shall be final. Provided, however, in case the final action of such commission denies the right of the claimant to participate at all or to continue to participate in such fund on the ground that the injury was self-inflicted or on the ground that the accident did not arise in the course of employment, or upon any other jurisdictional ground going to the basis of the claimant's right, then the claimant, within thirty (30) days after the notice of the final action of such commission, may by filing his appeal in the common pleas court of the county wherein the injury was inflicted or in the common pleas court of the county wherein the contract of employment was made, in cases where the injury occurs outside of the state of Ohio, be entitled to a trial in the ordinary way, and be entitled to a jury if he demands it. In such a proceeding, the prosecuting attorney of the county, unless he represents the appellant shall represent the industrial commission of Ohio, without additional compensation, and he shall be notified by the clerk forthwith of the filing of such appeal, but if said prosecuting attorney represents the appellant, the industrial commission of Ohio shall be notified by said clerk forthwith of the filing of said appeal. Within thirty days after filing his appeal, the appellant shall file a petition in the ordinary form against such commission as defendant, and further pleadings shall be had in said cause, according to the rules of civil procedure. The industrial commission of Ohio shall certify with its answer a transcript of its record relating to the matter in which the appeal is taken, and the court, or the jury, under the instructions of the court, if a jury is demanded, shall determine the right of the claimant upon the evidence contained in such record and no other evidence and if they determine the right in his favor, shall fix his compensation within the limits under the rules prescribed in this act; and any final judgment so obtained shall be paid by the industrial commission of Ohio out of the state insurance fund in the same manner as such awards are paid by such commission. In claims for compensation, medical, hospital and nursing services and medicines and funeral expenses brought before said commission, by an injured employe or by his dependents in the event of his death as the result of injury sustained in the course of employment, in which said commission denies the right of claimant or claimants to receive or to continue to receive compensation from an employer who has duly elected to pay

Upon the filing of the petition by such claimant against such employer, the court wherein the petition is filed shall order the industrial commission of Ohio to certify to said court a transcript of its record in the claim in which the appeal is taken and further proceedings shall be had in said cause as provided in appeals against the industrial commission of Ohio, and if a verdict is rendered in favor of the claimant or claimants, compensation shall be fixed within the limits under the rules prescribed in this act; and any final judgment so obtained shall be paid by the employer. Such judgment shall have the same preference against the assets of the employer in favor of the claimant or claimants as is now, or may hereafter be, allowed by law on judgment rendered for claims for taxes. the industrial commission of Ohio to certify to said court a transcript of its record in the claim in which the appeal is taken and further proceedings shall be had in said cause as provided in appeals against the industrial commission of Ohio; and if a verdict is rendered in favor of the claimant or claimants, compensation shall be fixed within the limits under the rules prescribed in this act; and any final judgment so obtained shall be paid by the employer. Such judgment shall have the same preference against the assets of the employer in favor of the claimant or claimants as is now, or may hereafter be allowed by law on judgment rendered for taxes. The cost of any legal proceedings, authorized by this section, including an attorney's fee to the claimant's attorney to be fixed by the trial judge, shall be taxed against the unsuccessful party; provided, however, that such attorney fee shall not exceed twenty per cent of any award up to the sum of five hundred dollars, and ten per cent on all accounts in excess thereof, but in no event shall such fee exceed the sum of five hundred dollars. AN ACT

To amend section 1231 of the General Code, relating to the state highway department, and to declare an emergency.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That section 1231 of the General Code be amended to read as follows:

Sec. 1231. The state highway commissioner, subject to the provisions of law governing the state highway department shall have power to purchase such equipment and materials, and employ such labor as may be deemed necessary, to execute any work upon said main market roads, or he may let contracts for the execution of any work upon said roads; and all such power shall extend to cases wherein county, township and villages, or any of them, cooperate, as herein authorized, as well as to cases wherein such local sub-divisions do not cooperate. The state highway commissioner shall be authorized to cooperate with a county, township or village in the improvement of any main market road, or in the doing of any part of the work incident to such improvement, upon any basis of the division of the cost of such work between the state and such county, township or village which he may deem just. He shall be authorized to do the grading at the expense of the state and cooperate with such county, township or village in constructing the pavement; or he may cooperate with such county, township or village in doing the grading, and construct the pavement at the expense of the state. He shall be authorized generally to do any part of the work at the expense of the state, and cooperate in doing any other part of the work upon any basis of division of cost between the state and the county, township or village which he may deem just. Counties, townships and villages shall be authorized to cooperate with the state highway commissioner in the doing of any work upon such main market roads upon any basis of the division of the cost thereof between the state and the county, township or village approved by the state highway commissioner, and the procedure shall be the same, except as may be otherwise provided herein, as in the case of cooperation in constructing an intercounty highway. The state highway commissioner is hereby authorized to sell, either at private sale, or at public sale after such notice as he may deem proper, any machinery, tools or equipment that through wear have become unfit for use. The proceeds of such sale shall be paid into the state treasury to the credit of the state highway improvement fund. County commissioners, township trustees and village councils in addition to the special powers herein conferred shall have the same power and authority to cooperate in the construction, improvement, maintenance and repair of main market roads as is granted to them by law in the construction, improvement, maintenance and repair of intercounty highways; and in case the commissioners of any county, the trustees of any township, and the council of any village, or any such authorities, determine to cooperate in the construction, improvement, maintenance or repair of any main market road, the procedure, except as herein otherwise authorized, shall be the same as in the case of cooperation by such authorities, in the construction, improvement, maintenance and repair of intercounty highways, as provided in sections 1178 to 1231-11, General Code. SECTION 3. This act is hereby declared to be an emergency law, necessary for the immediate preservation of the public peace, health and safety, and shall go into immediate effect. Such emergency consists in the fact that on many of the main market roads of the state, connecting important industrial and agricultural centers, there are unimproved portions, greatly interfering with and impeding transportation; and in order to correct such condition it is necessary that the state highway commissioner be vested with full power to proceed immediately with the improvement of such unimproved sections.

SECTION 2. Such proposition shall be submitted to the electors of such taxing district at the November election that occurs more than thirty days after the adoption of such resolution. The deputy state supervisors shall prepare the ballots and make the necessary arrangements for the submission of such question and the election shall be conducted, canvassed and certified in like manner, except as otherwise provided by law, as regular elections in such taxing district for the election of officers thereof. Notice of the election shall be given in one or more newspapers printed in the taxing district once a week for four consecutive weeks prior thereto, stating the time, place and purpose of holding the election. Such notice shall state the number of mills which may be levied under section 3 of this act in the event the proposition receives sixty per cent of those voting thereon and the number of mills, if any, which may be levied under section 4 of this act in the event the proposition receives a majority only of those voting thereon but fails to receive sixty per cent of those voting thereon. If no newspaper is printed therein, the notice shall be posted in a conspicuous place and published for four consecutive weeks prior to such election in a newspaper of general circulation in such taxing district.

The form of the ballots cast at such election shall be:

effect as if held under sections 5649-5 and 5649-5a of the General Code, as defined in section 5649-5b of the General Code, on the proposition of levying additional taxes at the rate of not exceeding three mills for a period of three years; but nothing in this section shall so apply as to reduce the number of mills which the electors of such taxing district may have, prior to the holding of such election, authorized to be levied for any year within such three-year period, by vote under such sections of the General Code referred to herein, nor the number of years for which such electors may have so authorized additional levies to be made by such vote.

SECTION 5. The taxing authorities of any municipality in which the people have voted, or may hereafter vote "Yes" on the question of exempting interest and sinking fund levies from tax limitations under the provisions of section 5649-6a of the General Code are hereby authorized to levy annually in the years 1921, 1922 and 1923, for the general purposes of such municipality in addition to the levy authorized by section 5649-3a of the General Code, a tax not exceeding three mills upon each dollar of the taxable property of such municipality. If the aggregate items of any municipal budget for the purpose for which a tax may be levied under section 5649-3a and under this section, would require in municipalities in which a township levy is not operative, a total levy of five mills or in municipalities in which a township levy is operative a total levy of four mills, the budget commissioners shall not reduce such items of such municipal budget below an amount which would be produced by a levy in such municipality of five or four mills, respectively, and shall not reduce the levy made under this section to a less number of mills than that amount which taken together with the levy allowed to such municipality under section 5649-3c will amount to a total levy of five or four mills respectively.

Sec. 6535-1.

SECTION 1. All proceedings for the construction or improvement of a joint county ditch commenced under the provisions of sections 6563-1 to 6563-48 inclusive of the General Code prior to July 11, 1919, as such sections were in effect on such date, are hereby declared and held to be valid, and boards of county commissioners or other officers shall have full power and authority to proceed with the construction or improvement under such sec-

tions, or contemplated by any petition filed or granted under such sections, and shall also have full power and authority to levy taxes and assessments and to sell bonds to pay for the construction of such ditch, and do all things contemplated by such petition under such sections of the General Code, as they were in effect prior to July 11, 1919, except that all bonds issued and sold in connection with the construction or improvement of such ditch may bear a rate of interest not to exceed six per cent.

Sec. 6535-2.

Emergency act.

SECTION 2. This act is hereby declared to be an emergency act necessary for the immediate preservation of the public peace and safety. The emergency necessitating the enactment of this act arises out of the fact that improvements involving large expenditure of money are awaiting the sale of bonds to raise funds to pay for such improvements commenced, and for which large investment has been paid out, which are delayed until bonds can be sold. At present time five per cent bonds can not be sold at the rate fixed by law, thus necessitating the placing on the market a six per cent bond. The season of the year is at hand for such construction and delay will postpone work for a year to detriment and damage of property, health, public peace and safety, from overflows of water damaging lands that can and should be drained.

Sec. 1352-8. In order to provide suitable medical and surgical treatment, and education when necessary, of crippled children whose parents or guardians fail or are financially unable to provide such treatment, the board of state charities is authorized and empowered to receive into its custody such children. Application for such care, treatment, and education, shall first be made to the juvenile court by a parent, guardian or some interested person. If such court is of the opinion that such child is in need of treatment and education, and finds that the parent or guardian fails to provide it, he may make an order to that end; or if the parent or guardian is financially unable to pay all or a part of the expense of such treatment, the court shall make a proper finding and decree. In either case the court shall at once forward a copy of the decree and a statement of facts to the board of state charities, and such board shall, when able to do so under this act, accept such child for care as hereinbefore provided. Upon receipt of notice from such board that such child can be given suitable treatment the court shall then commit such child to such board and provide for its conveyance in charge of a suitable person to the place designated by such board for treatment. The expenses for conveyance shall be paid by the county or by the parent or guardian as the court may direct. Such commitment shall be temporary and shall be only for the period necessary for the treatment of such child.

Such board shall exercise close supervision over such crippled children while patients in such hospitals and may at any time terminate any contract so made when in its judgment such action should be taken. Each child shall be visited as frequently as necessary and proper by a representative of such board who shall prepare and present to the board a written report concerning the progress of such patient.

Sec. 1352-10. Whenever it appears that a crippled child has been successfully treated, or that it cannot be further benefited by such treatment, the board shall order its discharge and thereupon its guardianship and responsibility shall cease. After such a child has been in the care of the board of state charities in accordance with this act for more than one year the parent or guardian, with the approval of the juvenile court, may cause its release from the supervision of the board of state charities.

[Senate Bill No. 100.]

AN ACT

Providing for joint city and rural high schools, for legal dissolution of joint high schools, inclusion of interest and depreciation allowances in computing tuition charges, and disposal of tuition fees collected; and to such ends enacting supplementary sections to section 7671, General Code, to be designated as sections 7671-1, and 7671-2, and amending sections 7669, 7672, 7682, 7736, and 7747 of the General Code.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That supplementary sections to be designated as sections 7671-1 and 7671-2 of the General Code are hereby enacted, and that sections 7669, 7672, 7682, 7736, and 7747 are hereby amended to read as follows:

Sec. 7669. The boards of education of two or more adjoining school districts, by a majority vote of the full membership of each board, may unite such districts for high school purposes. Each board also may submit the question of levying a tax on the property in their respective districts for the purpose of purchasing a site and erecting a building, and issue bonds, as is provided by law in case of erecting or repairing school houses; but such question of tax levy must carry in each district before it shall become operative in either. If such boards have sufficient money in the treasury to purchase a site and erect such building, or if there is a suitable building in either district owned by the board of education that can be used for a high school building it will not be necessary to submit the proposition to vote, and the boards may appropriate money from their funds for this purpose.

Union of districts for high school purposes; tax levy; submission of question.

Sec. 7671-1. In the case of every joint high school established and operating under the authority of sections 7669, 7670 and 7671, General Code, the county superintendent of schools shall certify on or before the first day of August of each year the teachers' payroll, the aggregate days of attendance, and the personal service item of transportation costs in connection with such high school to the county auditor, who shall distribute the apportionments on account of teachers' salaries, aggregate days of attendance, and transportation of pupils in such high school as provided for in section 7600, General Code, to the school district in which it is located. The clerk of the board of education of said district upon receipt of such distribution shall draw a warrant for the amount of the same, countersigned by the president of the board of education, in favor of the treasurer of the joint high school committee. The amount so received by the treasurer of the high school committee shall be credited on his books to the districts on the basis of the proportional enrollment in the joint high school from each of the districts participating in support of the same.

Certification of teacher's pay roll, etc.

Distribution of apportionment on account of teachers' salaries, etc.

Dissolution of
union high
school districts;
procedure.

Sec. 7671-2. Any union of districts for high school purposes as provided in sections 7669, 7670, 7671 and 7671-1, General Code, may be dissolved upon passage of resolutions by one or more of the boards of education of the school districts participating in such union demanding such dissolution, or upon failure of any one or more of the said boards of education to pay their proportion of the maintenance of the joint high school, provided that during the continuance of such union the obligations, financial and otherwise, involved in the acts of the joint high school committee shall be binding upon each and all of the participating districts. In the event of failure of the boards of education of the participating districts to agree upon the terms of dissolution of the union of districts referred to in the first part of this section, or when such boards of education fail, within sixty days from the time when dissolution has been resolved upon to effect a settlement of property interests and indebtedness involved in the establishment and maintenance of the joint high school in the case, the county board of education of the county in which such joint high school is located shall make such adjustments as may in its judgment be deemed equitable, and the terms of settlement fixed by the said county board of education shall be binding upon the several school districts concerned.

Certification to
county auditor
of estimates to
maintain schools.

Sec. 7672. Boards of education exercising control for the purpose of taxation over territory within a joint high school district shall determine by estimate the amount necessary for the maintenance of any joint school in such territory and shall certify such amount to the county auditor in the annual budget as provided in section 5649-3a, General Code. All funds derived from levies so made shall be kept separate and be paid out for the maintenance of the school for which they were made.

How per capita
tuition ascer-
tained and
paid.

Sec. 7736. Such tuition shall be paid from either the tuition or the contingent fund, and the amount per capita must be ascertained by dividing the total expenses of conducting the elementary schools of the district attended, exclusive of permanent improvements and repairs, said total expenses to include interest charges not exceeding five per cent per annum and depreciation charges not exceeding five per cent per annum, based upon the actual value of all property used in conducting said elementary school by the net annual enrollment in the elementary schools of the district, such amount to be computed by the school month. In computing such total expenses of conducting the elementary schools of such district the amount of the state common school fund and the proceeds of the state school levy retained in the county, apportioned to such district on account of teachers and other persons employed in such elementary schools, the amount of said state common school fund apportioned thereto on account of transportation of pupils, and the amount of such funds apportioned thereto on account of

aggregate days of attendance of pupils shall be deducted from the gross expenses of conducting such schools. An attendance any part of a school month will create a liability for the whole school month. Unless the annual school session is terminated before the end of a full school month.

Sec. 7747. The tuition of pupils who are eligible for admission to high school and who reside in districts in which no high school is maintained, shall be paid by the board of education of the school district in which they have legal school residence, such tuition to be computed by the school month. An attendance any part of the school month shall create a liability for the entire school month, unless the annual session is terminated before the end of a full school month. No more shall be charged per capita than the amount ascertained by dividing the total expenses of conducting the high school attended, exclusive of permanent improvements and repair, said total expenses to include interest charges not exceeding five percent per annum and depreciation charges not exceeding five percent per annum, based upon the actual value of all property used in conducting such high school, by the net annual enrollment in the high school.

When tuition paid by board of education.

In computing such total expenses of conducting such high school the amount of the state school levy retained in the county apportioned to such district on account of teachers and other persons employed in such high school, the amount of said common school fund apportioned thereto on account of transportation of high school pupils and the amount of such funds apportioned thereto on account of aggregate days of attendance of high school pupils shall be deducted from the gross expenses of conducting such school.

How expenses computed.

The district superintendent shall certify to the county superintendent each year the names of all pupils in his supervision district who have completed the elementary school work and are eligible for admission to high school. The county superintendent shall thereupon issue to each pupil so certified a certificate of promotion which shall entitle the holder to admission to any high school. Such certificate shall be furnished by the superintendent of public instruction.

Certification of pupils eligible to high school.

Sec. 7682. Each board of education may admit other persons upon such terms or upon the payment of such tuition within the limitations of other sections of law as it prescribes. Notwithstanding the provisions of section 7603, General Code, money received for tuition shall in all cases upon its receipt be placed in the tuition fund.

Non-resident pupils admitted on payment of tuition.

SECTION 1. That sections 7690, 7762, 7763 to 7766 inclusive, 7766-1, 7767, 6250, 7769 to 7774 inclusive, 7777, 7778, 7780, 7781, 7794 to 7799 inclusive, 7800, 7803, 12929, 12974 to 12988 inclusive, 12993, 12995, 12998, 12999, 13007-1, 13007-7, 13007-8, 13007-9, 13007-10 and 13007-14 of the General Code be amended, and that sections 7647-1, 7690-1, 7762-5, 7762-6, 7763-1 to 7763-4 inclusive, 7764-1, 7764-2, 7765-1, 7765-2, 7766-2 to 7766-9 inclusive, 7767-1, 7767-2, 7769-1, 7769-2, 7770-1 to 7770-4 inclusive, 7772-1, 7773-1, 7773-2, 7775, 7796-1, 7799-2, 12982-1 and 12993-1 of the General Code be added to read as follows:

Maintenance of part time schools or classes; how conducted; expenses.

Sec. 7647-1. The board of education of any school district may establish and maintain part-time schools or classes for the further education of children who are employed on age and schooling certificates. Such schools and classes shall be conducted not fewer than four hours per week while in session, and for not fewer than one hundred forty-four hours per calendar year between the hours of seven in the morning and six in the afternoon, excluding

Saturday afternoon and Sunday. Such schools and classes shall be conducted under such standards as the superintendent of public instruction may prescribe. Boards of education shall have power to provide for the expense of such schools and classes the same as for the expense of ordinary elementary schools.

Sec. 7690. Each city, village or rural board of education shall have the management and control of all of the public schools of whatever name or character in the district, except as provided in laws relating to county normal schools. It may elect, to serve under proper rules and regulations, a superintendent or principal of schools and other employes, including, if deemed best, a superintendent of buildings, and may fix their salaries.

Control of school
vested in board;
powers and
duties.

Provided, that if the board has adopted an annual appropriation resolution, as provided by section 4752-1, General Code, it may, by general resolution, authorize the director or other officer having the powers and duties of a director to appoint janitors, superintendents of buildings and such other employes as may be provided for in such annual appropriation resolution.

Sec. 7690-1. Each board of education shall fix the salaries of all teachers which may be increased but not diminished during the term for which the appointment is made. Teachers must be paid for all time lost when the schools in which they are employed are closed owing to an epidemic or other public calamity.

Salaries of
teachers how
fixed and paid.

Sec. 7762. All parents, guardians or other persons who have the care of children who are of compulsory school age as indicated in section 7763, General Code, and who are not employed on age and schooling certificates shall instruct them, or cause them to be instructed, in reading, spelling, writing, the English language, English grammar and composition, geography, arithmetic, United States history, American government and citizenship, and hygiene, or in such of those branches or in such other branches as are suited to the age, employment and advancement of the particular children and are included in the subjects taught in the schools of the state.

Branches in
which children
shall be in-
structed.

Sec. 7762-5. All parents, guardians and other persons who have the care of children who are employed on age and schooling certificates shall cause them to attend a part-time day school or class for the full time that the school or class is in session whenever such part-time school or class shall have been established and is accessible to the child in the district where the child resides or is employed, unless the superintendent of schools determines that a given child has already completed the same work as or work equivalent to that taken up in such part-time schools or classes as may be available for the child to attend or that the bodily or mental condition of the child does not permit of his attendance at such school or class.

Children em-
ployed on age
and schooling
certificates, shall
attend a part-
time day school
or class.

Such attendance shall begin within the first week of

the school term or within one week after an age and schooling certificate is issued to a child.

Jurisdiction
when child em-
ployed in one
district and re-
sides in another.

If a child resides in one school district and is employed in another he shall be under the jurisdiction of the district in which he is employed for the purpose of this section and section 7767, General Code, unless by written excuse the superintendent of schools releases him to the jurisdiction of the district in which he resides.

Who shall attend
school.

Sec. 7762-6. Every child of compulsory school age who is not employed on an age and schooling certificate shall attend a public, private or parochial school under the conditions prescribed in sections 7763, 7763-1, 7764 and 7764-1, General Code.

School
attendance.

Sec. 7763. Every parent, guardian or other person having charge of any child of compulsory school age who is not employed on an age and schooling certificate must send such child to a public, private or parochial school for the full time the school attended is in session, which shall in no case be for less than thirty-two weeks per school year. Such attendance must begin within the first week of the school term or within one week of the date at which the child begins to reside in the district or within one week after his withdrawal from employment.

When child may
be excused:
home teaching
requirements.

But the child may be excused from attendance at school for the current school year upon satisfactory showing that the bodily or mental condition of the child does not permit of its attendance at school or that the child is being instructed at home by a person qualified to teach the branches specifically enumerated in section 7762, General Code, and if the stage of advancement of the child demands it, qualified to teach such additional branches as his needs may require. The qualifications of the person purposing to teach such child at home shall be determined by the superintendent of schools. Excuses from school attendance under this section or section 7762-5, General Code, shall be given only by the superintendent of schools having jurisdiction in the district in which the child is living. Such excuse shall be in writing; a copy shall be given to the person in charge of the child; such excuse shall show the reason for excusing the child, and there shall be filed in the office of the superintendent issuing same, with a copy of the excuse, papers showing how the inability of the child to attend school or the qualifications of the person instructing the child at home were determined. Should it be found later within the school year that the disability of the child has been removed or that the child is not being properly instructed, as the case may be, it becomes the duty of the person who issues the excuse or of his successor to recall the same; or notwithstanding his neglect to do so the child and the persons in charge of the child may be proceeded against after due notice the same as if the excuse were no longer current.

Compulsory
school age de-
fined.

Compulsory school age shall mean six to eighteen years of age, except that the board of education of any city,

village or rural school district may at its discretion provide that in the given school district compulsory school age shall mean seven to eighteen years of age, such action being subject to modification to the standard of six to eighteen years of age by subsequent action of the board, and except that the attendance of a child who becomes six or seven years of age, as the case may be according to the standard of compulsory school age in effect in the given district, during a given semester shall not be required until the beginning of the following semester.

Sec. 7763-1. If any child shall so attend upon instruction elsewhere than in a public school such instruction shall be equivalent to the instruction given children of like age and advancement in the public schools of the district in which such child resides; and the hours and term of attendance exacted shall be equivalent to the hours and term of attendance required of children in the public schools of the district. But nothing in this section shall be construed to require a child to attend a high school instead of a vocational, commercial or other special type of school, provided the instruction therein is for a term and for hours equivalent to those of the high school, and provided his attendance at such school will not interfere with a continuous program of education for the child to the age of sixteen.

Requirements when child instructed elsewhere than in public school.

Sec. 7763-2. The registration of a child in or about the month of September when regular school sessions begin or at the time thereafter that he begins to reside in the district shall be a registration for the period until the next annual registration, if the child continues to reside in the district. Boards of education may provide or approve, subject to the approval of parents, activities for children during the summer vacation period which will promote their health, their civic and vocational intelligence, their industry, recreation, character or thrift or several of these. The superintendents of schools shall cause records to be kept of such activities assigned and completed. With the approval of the superintendent of public instruction the successful completion of such vacation activities may be required for promotions and diplomas of graduation; but the completion by any child of such vacation activities shall not be a prerequisite to the issuance of an age and schooling certificate for such child. Boards of education shall provide the service necessary to direct such activities and may pay any necessary expenses incident thereto, the same as the expense of an ordinary elementary school.

Provisions for health activities of children during vacation period; record of activities.

Sec. 7763-3. The term superintendent of schools as used in this chapter shall be interpreted to mean, in the respective classes of school districts, the city, exempted village or county superintendent of schools, or person designated by such superintendent; provided that if at any time there is no such superintendent in a given district the president of the board of education shall perform these duties.

The term "superintendent of schools" defined.

Appeal when
excuse or cer-
tificate is re-
fused.

Sec. 7763-4. In case such superintendent of schools refuses to excuse a child from attendance at school for one of the reasons stated in section 7763, General Code, or refuses upon request to grant an age and schooling certificate as provided in section 7766, General Code, an appeal may be taken from such decision to the judge of the juvenile court of the county, upon the giving of bond, within ten days thereafter, to the approval of such judge, to pay the costs of appeal. His decision in the matter shall be final.

Assignment of
pupil to classes:
when transporta-
tion furnished.

Sec. 7764. The child in his attendance at school shall be subject to assignment by the principal of the private school or superintendent of schools as the case may be, to the class in elementary school, high school or other school, suited to his age and state of advancement and vocational interest, within the school district; or, if the schooling is not available within the district, without the school district, provided the child's tuition is paid and provided further that transportation is furnished in case he lives more than two miles from the school, if elementary, or four miles from the school, if a high school or other school. The board of education of the district in which the child lives shall have power to furnish such transportation.

Work in high
school branches
shall be provid-
ed within four
miles.

Sec. 7764-1. Boards of education shall provide work in high school branches, as mentioned in section 7648, General Code, at some school within four miles of the residence of each such child for those children of compulsory school age who have finished the ordinary grade school curriculum except those who live within four miles of a high school and those for whom transportation to a high school has been provided.

When child not
compelled to at-
tend school.

Sec. 7764-2. If a child of compulsory school age has been graduated from a high school of the first grade such child shall not be required longer to attend school.

Age and school-
ing certificate of
minor employed;
filing of by
employer.

Sec. 7765. No minor of compulsory school age shall be employed or be in the employment of any person, company or corporation unless such minor presents to such person, company or corporation the proper age and schooling certificate, or age and preemployment card as a condition of employment. Such employer shall keep the same on file in the establishment where such minor is employed or in the office of the business or in the residence in or about which such minor is employed for inspection by attendance officers, probation officers, the superintendent of schools, or inspectors or other employes of the industrial commission or the board of state charities of Ohio, or representatives of the district board of health or state department of health.

Such certificate or an over age certificate or age and preemployment card shall be conclusive evidence for such employer of the age of such minor and so long as in force of the employer's right to employ such minor the minor's right to engage in such occupations as are not denied by law to minors of the age and sex stated in such certificate, ex-

cept that a limited or special certificate is confined to particular employments.

Notice to the school authorities that the child has left the employ of an employer shall render void from that date the age and schooling certificate or age and preemployment card filed with such employer, insofar as it shall permit the further employment of such child.

Sec. 7765-1. The parent or guardian of a child of compulsory school age shall be required to secure and keep on file the proper age and schooling certificate of his child or ward if such child or ward is employed by him and shall be required to return such certificate as provided in section 7766-1, General Code, but a parent or guardian shall not be required to secure and keep on file a special or vacation certificate of his child or ward that such child or ward may be employed by him personally when school is not in session.

Age and schooling certificate of child kept on file by parent or guardian, when.

Sec. 7765-2. Notwithstanding the provisions of sections 7765 and 12993, General Code, a child may be employed in irregular service not forbidden by sections 13001, 13002 or 13007-3, General Code, without holding an age and schooling certificate.

Employment in irregular service not forbidden.

Irregular service shall be interpreted to mean service not forbidden by federal child labor laws which (a) does not involve confinement, (b) does not require continuous physical strain, (c) is interrupted with rest or recreation periods, and (d) does not require more than four hours of work in any day or twenty-four hours in any week. The health commissioner of the district in which employment is afforded to any child shall determine whether the employment involves confinement or requires continuous physical strain so that it cannot be deemed irregular service within the meaning of this section.

Sec. 7766. An age and schooling certificate may be issued only by the superintendent of schools and only upon satisfactory proof that the child to whom the certificate is issued is over sixteen years of age and has satisfactorily passed a test for the completion of the work of the seventh grade, provided that residents of other states who work in Ohio must qualify as aforesaid with the proper school authority in the school district in which the establishment is located, as a condition of employment or service.

Who may issue age and schooling certificates.

Any such age and schooling certificate may be issued only upon satisfactory proof that the employment contemplated by the child is not prohibited by any law regulating the employment of such children; and when the employer of any minor for whom such age and schooling certificate shall have been issued shall keep such age and schooling certificate on file as provided by law, the provisions of section 6245-2, General Code, shall not apply to such employer in respect to such child while engaged in an employment legal for a child of the given sex and of the age stated therein.

When certificates may be issued; by whom signed.

Age and schooling certificate forms shall be formulated by the superintendent of public instruction, and except in cases otherwise specified by law must be printed on white paper. Every such certificate must be signed in the presence of the officer issuing it by the child in whose name it is issued. Blank certificates shall be furnished by the superintendent of public instruction upon request.

Requirements
before issuing
certificate.

Sec. 7766-1. The superintendent of schools shall not issue such certificate until he has received, examined, approved and filed the following papers duly executed:

(1) The written pledge or promise of the person, partnership or corporation to legally employ the child, to permit him to attend school as provided in section 7767, General Code, and to return to the superintendent of schools the age and schooling certificate of the child or give notice of the non-use thereof within two days from the date of the child's withdrawal or dismissal from the service of that person, partnership or corporation, giving the reasons for such withdrawal or dismissal.

(2) The school record of the child, properly filled out and signed by the person in charge of the school which the child last attended; giving the recorded age of the child, his address, standing in studies, rating in conduct, and attendance in days during the school year of his last attendance, and if that was not a full year, during the preceding school year.

(3) Evidence of the age of the child as follows:

(a) The birth certificate of the child (or duly attested transcript thereof) issued near the date of the birth of the child by the registrar of vital statistics of Ohio, or by a similar officer charged with the duty of recording births in another state or country, shall be conclusive evidence of the age of the child.

(b) In the absence of such certificate, a passport (or duly attested transcript thereof) showing the date and place of birth of the child, filed with a register of passports at a port of entry of the United States; or a duly attested transcript of the certificate of birth or baptism or other religious record, showing the date and place of birth of the child, shall be conclusive evidence of the age of the child.

(c) In case no one of the above proofs of age can be produced, other documentary evidence (except the affidavit of the parent, guardian or custodian) satisfactory to the superintendent of schools may be accepted in lieu thereof.

(d) In case no documentary proof of age can be procured, the superintendent may receive and file an application signed by the parent, guardian or custodian of the child that a physician's certificate be secured to establish the sufficiency of the age of the child. Such application shall state the alleged age of the child, the place and date

of birth, his present residence, and such further facts as may be of assistance in determining the age of the child, and shall certify that the person signing the application is unable to obtain any of the documentary proofs specified in (a), (b) and (c) above.

If the superintendent of schools is satisfied that a reasonable effort to procure such documentary proof has been without success such application shall be granted and the certificate of the school physician or if there be none, of a physician employed by the board of education, that said physician is satisfied that the child is above the age required for an age and schooling certificate as stated in section 7766, General Code, shall be accepted as sufficient evidence of age.

(4) A certificate from the school physician or physician designated by him, or if there be no school physician from the district health commissioner, or physician designated by him, showing after a thorough examination that the child is physically fit to be employed in such occupations as are not prohibited by law for a boy or girl, as the case may be, under eighteen years of age.

But a certificate with the word limited written, printed or stamped diagonally across its face may be furnished by the school physician or other person indicated in the above sentence, and accepted by the superintendent of schools in issuing a "limited" age and schooling certificate provided in section 7766-3, General Code, showing that the child is physically fit to be employed in some particular occupation not prohibited by law for a boy or girl as the case may be of the child's age which the child contemplates entering even if the child's complete physical ability to engage in any occupation as required in the preceding sentence cannot be vouched for.

Sec. 7766-2. When an age and schooling certificate, returned according to section 7766-1, General Code, is re-issued, the pledge of the new employer and certificate from the school physician or other person in his stead shall be secured and filed.

What required
on reissue.

Sec. 7766-3. The age and schooling certificate provided in section 7766, General Code, shall be issued only with the word "limited" printed or stamped diagonally across its face if the certificate of the physician provided in section 7766-1 or 7766-2, General Code, is a limited certificate and in that case the particular employment to which it is limited shall be stated in the certificate, and the certificate cannot serve as the legal age and schooling certificate for employment in another occupation. Such limited certificate shall be printed on pink paper.

When the word
"limited" shall
be written on
face of certi-
ficate.

Sec. 7766-4. In order to ascertain whether applicants for age and schooling certificates have satisfactorily completed the school work prescribed in section 7766, General Code, the board of education of any city school district may appoint a juvenile examiner who shall receive such

Examination to
determine
whether appli-
cant has com-
pleted school
work.

compensation as may be fixed by the board of education. When such a juvenile examiner is employed no such certificate shall be granted by the superintendent of schools of the district unless the juvenile examiner has certified that he has examined the child and that the child has passed to his satisfaction the grade test as provided by section 7766, General Code, provided, however, that if a child in the opinion of said juvenile examiner is below the normal in mental development so that he cannot with further schooling and due industry pass such test, such fact shall be certified to by said examiner and the superintendent of schools shall grant the child an age and school certificate printed on yellow paper with the words "Retarded-Schooling not Standard" written, printed or stamped diagonally across the face; and provided, further, that if the juvenile examiner is satisfied that the standard of any school is sufficiently high, he may accept the records thereof as showing that a child has passed the required test. In case no juvenile examiner is employed the superintendent of schools may proceed and determine in like manner; if after proper tests he determines that a child is below normal in mental development to the extent specified above, he shall grant such a "retarded" age and schooling certificate. If a child who desires an age and schooling certificate is granted a "retarded" certificate but secures only a limited health certificate; the word "limited" shall be written or stamped across the face of the "retarded" certificate and the limited "retarded" certificate shall be on yellow paper; in which case the certificate shall show to what employment it is limited.

Record of facts contained in certificates must be kept.

Sec. 7766-5. A record giving all the facts contained in every age and schooling certificate issued shall be kept on file in the office issuing the same; and also a record of the names and addresses of the children to whom certificates have been refused, together with the names of the schools and grades which such children should attend and the reasons for the refusals; and also a record of all certificates returned or no longer used, as provided in sections 7766-1, (1), 7766-6 or 7766-9, General Code, with the reasons therefor, and the subsequent assignment of the child to a school, if any; and also a record of the conditions on which any certificates were issued, and there shall be kept on file also the pledges given in connection therewith; and also a record of the special facts connected with the issuing of "retarded" or limited certificates. The superintendent of public instruction shall have the power to prescribe methods of filing of all such facts, records and papers, for purposes of effective reference. The above-named record is nevertheless not required in the cases of certificates denied to those determined immediately at the time of inquiry to be of insufficient age.

Vacation certificates, issue of; how printed.

Sec. 7766-6. The superintendent of schools may issue a vacation certificate to a boy or girl under eighteen years

of age and over fourteen years of age which shall permit him to be employed within the restrictions of other statutes during the summer school vacation up to August 25th, in occupations not forbidden by sections 13001, 13002 or 13007-3, General Code, to children of his age and sex, regardless of what schooling he has completed, but before such certificate is issued the requirements prescribed in section 7766-1 with relation to health, written pledge of employment, and proof of age must be complied with. Such vacation certificate shall be printed on blue or blue-tinted paper and the word "vacation" shall be printed or stamped across its face; such certificate shall include a statement of the school and grade in which the child is enrolled. Such certificates must be returned to the superintendent of schools by employers within the same period and under the same penalties as regular age and schooling certificates and may be revoked by the superintendent of schools at any time because of the physical condition of the child or other sufficient cause.

If a child who desires a vacation age and schooling certificate secures only a limited health certificate the word "limited" shall be written or stamped across the face of the vacation certificate and the limited vacation certificate shall be on blue or blue-tinted paper; in which case the certificate shall show to what employment it is limited.

Sec. 7766-7. Whenever the school record of a child as specified in section 7766-1, General Code, is required for the purpose of determining his eligibility to an age and schooling certificate, such record shall be furnished by the superintendent, principal, teacher or other official in charge of the public, private or parochial school attended by the child within two days after a request for the same is made by the parent, guardian or custodian of the child.

School record of
child furnished.

Sec. 7766-8. Whenever an age and schooling certificate is applied for by a child over sixteen years of age who is unable to satisfactorily pass a test for the completion of the work of the seventh grade and who is not so below the normal in mental development that he cannot with further schooling and due industry pass such a test, an age and schooling certificate with the words "Conditional—Schooling not Standard" printed or stamped across its face may be issued by the superintendent of schools to such child upon proof acceptable to such superintendent of schools of the following facts and upon agreement to the respective conditions made in writing by the child and by the parent, guardian or custodian in charge of such child:

When and upon
what facts
"conditional—
schooling not
standard" cer-
tificates may be
issued.

(A) Facts to be proved:

That the child is addicted to no habit which is likely to detract from his reliability or effectiveness as a worker, or proper use of his earnings or leisure, or the probability of his faithfully carrying out the conditions to which he agrees as specified in (B) below, and in addition any one of the following groups of facts—

Facts to be
proved.

(1) That the child has been a resident of the school district for the last two or more years, has diligently attended upon instruction at school for the last two years or more, and is able to read, write and perform the fundamental operations of arithmetic. These abilities shall be judged by the juvenile examiner or if there be none, by the superintendent of schools.

(2) That the child having been a resident of the school district less than two years, diligently attended upon instruction in school in the district or districts in which the child was a resident next preceding his residence in the present district for the last school year preceding his removal to the present district, and has diligently attended upon instruction in the schools of the present school district for the period that he has been a resident thereof.

(3) That the child has removed to the present school district since the beginning of the last annual school session, and that instruction adapted to his needs is not provided in the regular day schools in the school district.

(4) That the child is not sufficiently familiar with the English language to be properly instructed in the full-time day schools of the district.

(5) That the child is needed for the support or care of a parent or parents or for the support or care of brothers or sisters for whom the parents are unable to provide and that the child is desirous of working for the support or care of such parents or siblings and that such child cannot render such needed support or care by a reasonable effort outside of school hours. But no age and schooling certificate shall be granted to a child upon proof of the facts in the preceding sentence without written consent given to the superintendent of schools by the judge of the juvenile court and by the board of state charities.

(B) Conditions to be agreed to:—

Conditions to be
agreed to.

(1) In case the certificate is granted under facts (1), (2), (3) or (5) above, that until reaching the age of eighteen years the child will diligently attend in addition to part-time classes, such evening classes as will add to his education for literacy, citizenship or vocational preparation which may be made available to him in the school district and which he may be directed to attend by the superintendent of schools, or in case no such classes are available, that he will pursue such reading and study and report monthly thereon as may be directed by the superintendent of schools.

(2) In case the certificate is granted under fact (4) above, that until the age of twenty-one years or until the person is eighteen years of age and has learned to read, write and speak the English language, the said person will attend in addition to part-time classes, such evening classes as will assist the person to learn the American language or advance in Americanization which may be made available to him in the school district and which he may be directed to attend by the superintendent of schools. Such

conditional age and school certificate shall be printed on green paper. If a conditional age and schooling certificate is at the same time a limited certificate, the word "limited" shall be written or stamped diagonally across the face and the provisions of section 7766-3, General Code, shall apply except as to the color of the certificate.

Sec. 7766-9. A special age and schooling certificate which shall permit a child to be employed during the hours that the school to which the holder is assigned is not in session, other than the summer vacation, or, where cooperative part-time classes approved by the state board of education have been established, shall permit a child to be employed on the alternate days, weeks, or periods, on which his division is assigned to such part-time employment may be issued to a child above fourteen years of age under all of the conditions other than age and education which apply to a regular age and schooling certificate and such additional conditions as the superintendent of schools may deem necessary. Such special age and schooling certificate shall entitle such child to engage in occupations not forbidden to such children by section 13001, 13002 or 13007-3, General Code. Provided, however, that said sections 13001, 13002 and 13007-3, shall not be interpreted in such a way as to prevent any pupil from working on any properly guarded machine in the manual training department of any school when such work is performed under the personal supervision of an instructor.

Special age and schooling certificate; limitations and conditions.

No child under sixteen years of age shall be engaged in school and employment above nine hours altogether in any one day.

Every special age and schooling certificate shall be limited and specific and shall be in such form as will show all essential facts, and the form thereof or directions for recording the facts thereon may be prescribed by the superintendent of public instruction.

Such certificate shall be printed on light brown paper.

Such certificate shall be returned to the superintendent of schools on or before the day that school adjourns for the summer vacation except when the co-operative part-time classes continue during the summer vacation. They shall be filed and returned by employers under the same conditions and penalties as apply to regular age and schooling certificates.

Sec. 7767. Every child who has been granted an age and schooling certificate shall, until the age at which such certificate is no longer required by law, attend a part-time school or class for the number of hours not over eight per week that such school or class is in session, provided the board of education of the school district in which the child resides or is employed has made such school or class available. Such attendance shall be for the full term such school or class is in session, and shall begin with the first week of the school term or within one week after issuance

Sec. 7767-1. Attendance at a part-time school or class provided by an employer, or by a partnership, corporation or individual, or by a private or parochial school, or by a college, or by a philanthropic or similar agency shall serve in lieu of attendance at a part-time school or class provided by a board of education in case the given school or class is conducted for substantially a term and hours equivalent to those of the part-time schools or classes provided by the local board of education, and in case, further, the school or class is approved by the superintendent of public instruction. When such school or class is conducted within or in connection with the establishment in which the child is working the obligation of attendance at part-time school or class indicated in section 7767, General Code, shall apply to the children holding age and schooling certificates who are employed in the given establishment regardless of the accessibility of public part-time schools or classes.

Sec. 7769-1. Every county board of education shall employ a county attendance officer, and may employ or appoint such assistants as the board may deem advisable. The compensation and necessary traveling expenses of such attendance officer and assistants shall be paid out of the county board of education fund. With the consent and approval of the judge of the juvenile court, a probation officer of the court may be designated as the county attendance officer or as an assistant. The compensation of the probation officers of the juvenile court so designated shall be fixed and paid in the same manner as salaries of other probation officers of the juvenile court; their traveling expenses as attendance officers which would not be in-

curred as probation officers shall be paid out of the county board of education fund. The county attendance officer and assistants shall work under the direction of the county superintendent of schools. The authority of such attendance officer and assistants shall extend to all the village and rural school districts which form the county school district. But this section shall not be interpreted to confine their authority to investigate employment to that within the county school district.

Sec. 7769-2. An attendance officer or assistant may investigate any case of non-attendance at school or part-time school of a child under eighteen years of age or supposed to be under eighteen years of age resident in the district for which he is employed as attendance officer or assistant, or found in the district or enrolled in any school within the district and of any child above eighteen years of age if enrolled in any school within the district, and may take such action in accordance with law as the superintendent of schools may direct or as he himself may deem proper in the absence of specific directions.

Sec. 7777. When an attendance officer is satisfied that a child compelled to attend school is otherwise unable to do so because absolutely required to work at home or

elsewhere in order to support himself or help to support or care for others legally entitled to his services who are unable to support or care for themselves, such officer must report the case to the president of the board of education of the city, exempted village, village or rural school district in which such child resides. Upon proof of such fact the given board of education shall furnish free of charge text-books and such other personal necessities for the child or persons entitled to his service and also such medical care in cooperation with the health commissioner of the district as may be necessary to enable the child to attend school. The expense incident to furnishing such relief must be paid from the contingent fund of the school district. Such child shall not be considered a pauper by reason of the acceptance of such relief. He shall also issue an order on the parents, guardian or other person in charge of the child to appear before him at such hearing, a copy of which order must be served personally on the proper person by the attendance officer or other person ordered to bring the child before the judge. If on the hearing the judge of the juvenile court is satisfied that the child is not being properly educated and will be benefited by attendance at one of the state institutions for the education of such children and is a suitable person to receive instruction therein or that it is dangerous to society for the child to remain without custodial care, he may send or commit such child to such institution adapted to the needs of children handicapped in the particular respect.

When and how enumeration taken.

Sec. 7796. On or before the last Saturday in April the board of education of each school district shall appoint one or more persons to take the enumeration provided for in the next two preceding sections. A board of education may employ a teacher or attendance officer to take the enumeration.

In case the enumeration has not been taken as required by law or the abstract be not furnished without delay the auditor shall employ competent persons to take the enumeration, who shall make return directly to the auditor who may administer to each such person employed the oath or affirmation required. He shall allow each person so employed by him a reasonable compensation to be paid out of the general county fund. If the necessity of the employment by the auditor of persons to take the enumeration arose from the failure of the clerk of a board of education to perform his duties the expense of taking the enumeration may be recovered from said clerk in an action in the name of the state and the amount so collected shall be paid into the general county fund. Otherwise the expense of taking the enumeration by those employed by the auditor shall be charged by the auditor against the school district, and the amount thereof shall be deducted by the auditor from funds due to such district at the next semi-annual settlement.

SECTION 3. The sums set forth in section 1 of this act, opposite the several classifications of detailed purposes, shall not be expended for any other purposes except as herein provided.

Authority to expend the monies appropriated for "Total Personal Service" and "Total Maintenance" in section 1 of this act otherwise than in accordance with such classifications of detailed purposes but within the purpose for which appropriation is made, may be granted to any department, institution, board or commission for which appropriations are made in said section, by a board to be known as the "Controlling Board", consisting of the governor, or a designated officer or employe, if appointed by the governor for such purpose, the chairman of the finance committee of the house of representatives and of the senate, respectively, the attorney general and the auditor of state. The present chairmen of said finance committees shall continue to serve as members of said controlling board notwithstanding the expiration of their respective terms of office as members of the general assembly, until the senate and the house of representatives of the succeeding general assembly shall have organized and the chairmen of the respective finance committees thereof have been selected. The governor, or a designated officer or employe, shall be president, and the director of finance shall be secretary of the board; but the director of finance may designate an employe in his department to act as such secretary.

Authority of
controlling
board: record.

Application for such authority shall be made to the president of the controlling board in writing, and the consent of not less than four members of the controlling board shall be required for the granting of such authority. Said board may authorize the expenditure of monies appropriated in said section 1 of this act within the purpose for which the appropriation is made, whether included in the detailed purpose for which such appropriations are distributed in said section or not.

The secretary shall make a complete record of authority so granted, and shall certify a copy of the record of each action of the board to the auditor of state. All meetings of the board shall be open to the public. The necessary expenses of the chairmen of the finance committees of the house of representatives and the senate, when engaged in their duties as members of said board, shall be paid from any funds appropriated for the expenses of legislative committees, upon itemized vouchers approved by the president and secretary of the board.

In case of any variance between the several specified sums in the column designated "Biennium" and the aggregate amount of said sums in such column, the respective specified sums shall be deemed to have been appropriated; and in case of any variance between the amount of any appropriation and the aggregate amount of the detailed allotments thereof, the controlling board shall, with the advice and assistance of the department, institution or board affected thereby, adjust the detailed allotments so as to correspond in the aggregate with the proper appropriation.

Changes of departments or divisions.

SECTION 4. Appropriations made to a department of the state administration by section 1 of this act are hereby expressly made subject to the exercise of the authority of the director of a department, or of such director and the governor as provided by section 154-8 of the General Code. Whenever the exercise of any authority granted by such section in any wise changes the divisions within such departments for which appropriations are made by section 1 of this act, or transfers functions or personnel from one division to another within the same department or to a new division created within a department, the authority so acting shall certify such action to the director of finance and the auditor of state, and thereupon the balances then remaining to the credit of appropriations and detailed allotments thereof made by section 1 of this act, in excess of the amount of contingent liabilities theretofore incurred, which shall be considered the net balances thereof for the purposes of this section, or such proportion or part of said net balances as shall be so certified as necessary to conform to such action, shall be transferred without change to similar appropriation accounts and detailed allotments thereof under authority of the same department or to new appropriation accounts of like nature and detailed allotments thereof, as the case may require. The action of the "Controlling Board" provided for by section 3 of this act shall not be necessary in such cases.

"Rotary Fund" defined.

SECTION 5. The term "Rotary Fund" as used in this act means a fund set aside to enable a department or institution to carry on a function or an activity, self-sustaining in its nature, the receipts from which are to be used for the function or activity for which the rotary fund is established.

Money obtained from the function or activity for which a rotary fund is provided shall be turned into the treasury, and such monies so turned into the treasury between July 1, 1921, and June 30, 1923, both inclusive, are hereby appropriated for the purpose for which such rotary fund is herein established.

All monies to the credit of existing rotary funds are hereby appropriated and all existing rotary funds are hereby continued in effect for the full period named in this section.

Invoice for labor or material must show contract let by competitive bidding.

SECTION 6. If the order and invoice drawn against any appropriation herein is made for labor and material furnished or for commodities purchased, it shall show that the same was furnished or purchased pursuant to competitive bidding and that the lowest bidder was awarded the contract, unless the controlling board shall have authorized the furnishing of such labor or material or the purchase of such commodity without competitive bidding.

Construction by force account on consent of controlling board.

Whenever in the judgment of a department, board, commission or institution affected it seems desirable and in the interests of economy to construct or repair any building

or make any other improvement herein provided by force account and the controlling board consents to such method and certifies such consent in writing to the auditor of state and the director of finance in duplicate, sections 2314 to 2330 inclusive, of the General Code, shall be deemed not to apply to that part of such work to be done by force account. It shall be the duty of the auditor of state or the director of finance to see that these provisions are complied with.

SECTION 7. A transfer, in whole or in part, of the functions of any existing department, board or commission for the uses and purposes of which appropriations are made in section 1 of this act to any other department, board or commission by a law which takes effect after the date on which this act shall become effective, shall not affect the availability of any such appropriations except as herein-after provided. On and after the date on which any such law shall become effective such appropriations shall be available for the proper uses and purposes of the department, board or commission to which such functions are thereby transferred, and such department, board or commission shall on and after such date have the exclusive power and authority to incur liabilities against such appropriations and to draw orders and invoices on account thereof as provided in section 3 hereof, to the extent only, however, of the balances then remaining to the credit of such appropriations in excess of the amount of contingent liabilities theretofore incurred, which shall be considered the net balances thereof for the purposes of this section. In the event that any department, board or commission for the uses and purposes of which an appropriation is made in section 1 of this act, is abolished by any such law, and any function of such department, board or commission so abolished is not transferred to any other department, board or commission by the provisions of such law, the net balances of appropriations available for the uses and purposes of such abolished department, board or commission in the discharge of such function shall, on the date on which such law shall become effective, lapse into the fund from which they were appropriated.

If any appropriation account, whether for personal service or otherwise, created by section 1 of this act for the uses and purposes of a department, board or commission which is abolished, or any function, or functions, of which are transferred to any other department, board or commission by the provisions of any law so taking effect as aforesaid is primarily available in the discharge of all or several of the functions of such first department, board or commission, the controlling board, immediately upon the taking effect of such law, at a meeting open to the public, and after consultation with each of the departments, boards, or commissions to be affected by its action, shall ascertain and determine the proportion of the net balance of any

Transfer does not affect the availability of appropriations.

Availability of appropriation for uses of department, board, etc., abolished.

such appropriation account which will be needed in the discharge of each of the functions, or group of functions so transferred to a single department, board or commission, or the proportion thereof which will no longer be needed by reason of the abolition of any such functions. The board shall determine the amount of a net balance of such appropriation account attributable to each of the functions for which the original appropriation was made, and the auditor of state shall divide the appropriation accounts on the books of his office in accordance therewith, and in the event of the abolition of a function shall lapse the appropriation or the net balance of such appropriation account determined by the board to be attributable to such abolished function, into the fund from which the original appropriation was taken.

When salaries not fixed, board, department, etc., must file apportionment 10 days before act becomes effective.

SECTION 8. Each department, board or commission for which an appropriation is made in this act and for the salaries of a specified number of employes where salaries are not fixed by law, shall, not less than ten days prior to the date on which such appropriation becomes effective apportion such appropriation account and file the same with the president of the controlling board. Said board may change such apportionment and shall certify such apportionment with any modifications it may make to the auditor of state, with the approval of the board endorsed thereon.

How appropriations for salaries expended.

SECTION 9. So much of the appropriation herein made for personal service as pertains to the compensation of employes in the following groups and grades of the classified civil service of the state, save and except employes in such groups and grades in the state universities and universities receiving state aid, normal schools, institutions under the control of the department of public welfare, the Ohio agricultural experiment station and the Ohio soldiers' and sailors' orphans' home, may be expended only in accordance with the classification and rules of the state civil service commission and at the following rates of annual salaries for the respective groups and grades:

That sections 1579-501, 1579-504, 1579-506, 1579-513, 1579-515, 1579-516, 1579-519, 1579-534, 1579-540, and 1579-542 of an act passed April 3, 1919, entitled, "An act to establish a municipal court in and for the city of Akron and to repeal an act entitled 'An act to establish a police court in the city of Akron, Summit County, Ohio,' passed May 10, 1910, and all acts amendatory thereof" be amended to read as follows:

Sec. 1579-501. The court shall consist of three judges, all of whom shall be qualified electors and residents of the city of Akron and shall have been admitted to the practice of law in the state of Ohio for at least five years. Each judge shall receive a salary of four thousand five hundred dollars per annum, payable in monthly installments, fifteen hundred dollars of which shall be paid out of the treasury of Summit County and three thousand dollars of which shall be paid out of the treasury of the city of Akron. The vacations of the respective judges shall not exceed thirty days in any year and shall be at such times as may be fixed by the judges and shall be so fixed that at least two judges shall be in attendance at all times.

Sec. 1579-504. The judges shall be subject to the same disabilities, may be removed from office for the same causes and shall be governed by the same provisions of law as judges of the court of common pleas, except as otherwise provided herein. Any vacancy which may occur in the office of judge, other than by temporary absence or disability shall be filled by appointment by the governor until a successor is elected and qualified, provided that if such temporary absence or disability shall continue for one year, it shall operate to constitute a vacancy. Every such vacancy shall be filled by election at the first general municipal election taking place more than thirty days after the vacancy shall have occurred. The person elected shall fill the office for the unexpired term.

Removal; vacancy, how filled.

Sec. 1579-506. The court shall have and exercise original jurisdiction within the limits of the city of Akron as follows:

Original jurisdiction in the city of Akron.

1. In all actions and proceedings of which justices of the peace have or may be given jurisdiction.

2. In all civil actions and proceedings at law for the recovery of money or personal property when the amount

claimed by any party, or the appraised value of the personal property sought to be recovered does not exceed one thousand dollars, and in such actions judgment may be rendered for an amount over one thousand dollars when the excess over one thousand dollars consists of interest or costs accrued after the commencement of the action.

3. In all actions arising out of contract when the amount claimed by the plaintiff, exclusive of costs, does not exceed one thousand dollars, the court shall have jurisdiction to decree reformation or cancellation under the ordinary rules and proceedings in equity.

4. In all actions and proceedings at law to enforce the collection of its own judgment or judgments rendered by justices of the peace of Akron township, Summit county, or by the police court of the city of Akron and in all proceedings for the revivor of such judgments.

9. Authority to distribute and control all property levied upon or seized by any legal process issuing from the court, or the proceeds thereof, which may come into the hands of its officers, and to order the immediate sale of any property of a perishable nature which may come into the hands of an officer of the court upon any process issuing from the court, and the money realized therefrom shall be held and retained by the officer until distributed by order of the court as herein provided.

11. Within the jurisdiction of the court, authority to determine any controversy between parties before it, when it can be done without prejudice to the rights of others, or by saving their rights. When such determination cannot be had without the presence of other parties, the court may order them to be brought in or may dismiss the action without prejudice.

Sec. 1579-514. When the amount claimed by the plaintiff exceeds the sum for which the court is authorized to render judgment, he may remit the excess and judgment may be rendered for the residue. A defendant having a counter-claim or set-off which is in excess of such sum, may assert the same and the court shall have jurisdiction to hear and determine such counter-claim or set-off and render judgment thereon to the amount of one thousand dollars, but such defendant shall not be thereby precluded from setting up the residue of his claim in a separate action. And such defendant may, at his option, withhold setting up such counter-claim or set-off and may make the same the subject of a separate action in a court of competent jurisdiction.

When amount exceeds sum court authorized to render judgment for.

In all cases in which service by publication is authorized by law, publication for three consecutive weeks shall be sufficient.

2. The return day of the summons or writ shall be fixed by a rule of court not later than seven days after issuance and the summons or writ shall be served at least three days before the time of appearance, except that in cases in forcible entry and detention or the forcible detention only of real property, the return day shall be as provided by law in such actions before justices of the peace.

If in the judgment of the deputy highway commissioner or county surveyor of any county in the state a main market or intercounty highway, or section thereof, would be damaged or destroyed by heavy traffic during the period when moisture is under, in or upon said main market or inter-county highway, such limitation of weight of vehicle and load as above provided may, with the consent of the state highway commissioner, be reduced by said deputy highway commissioner or county surveyor during such period of moisture to such weight as may in the judgment of said deputy highway commissioner or county surveyor be carried over such road without undue damage thereto, and the said deputy highway commissioner or county surveyor shall cause to be placed and retained on said highway or section thereof, during the period of such reduced limitation, two or more signs of substantial construction which will conspicuously indicate the limitation of weight of vehicle and load which will be allowed on such highway or section thereof. The expense of the purchase and erection of signs provided for in this section shall be paid from funds for the maintenance and repair of the state highway department.

Period during which weight of vehicles and load may be further limited.

The deputy highway commissioner or county surveyor may in like manner during the same period reduce the maximum weight which shall be allowed vehicles with loads using improved highways, or sections thereof, within the county, other than main market and inter-county highways and highways or streets located within any municipal corporation or corporations.

And in the case of pneumatic tires of rubber or other similar substance, the total width of all tires on all wheels

shall be the actual average diameter of all such tires measured when inflated.

In no event shall the load, including the proportionate weight of vehicle that can be concentrated on any wheel exceed six hundred and fifty (650) pounds to each inch in width of the tread as defined above for solid tires; or each inch in the average diameter of pneumatic tires measured when inflated.

The provisions of this section shall not apply to metal tire horse drawn vehicles when in use upon the streets or thoroughfares of cities and villages, except such streets and thoroughfares therein as have been or may hereafter be, improved by the state or county.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 4679, 4688, 4708, 4747, 4763, 7610-1, 7679, 7703 and 7731-1 of the General Code be amended and supplemental section 7838-1 be added to read as follows:

What school dis-
tricts may be-
come exempt
from county
supervision.

Sec. 4688. The board of education of any village school district containing a village which according to the last census had a population of three thousand or more, may by a majority vote of the full membership thereof decide to be exempted from the supervision of the county board of education. Such village school district by notifying the county board of education of such decision before May first in any year, shall be exempt from the supervision of the county board of education for the following school year which begins September first thereafter. The village once so exempted shall be styled an exempted village school district and shall remain so until the board of education thereof by a majority vote of the full membership determines that it desires to be supervised by the county board of education and notifies the county board of education on or before May first in any year to that effect.

Board of educa-
tion in exempted
and village dis-
tricts.

Sec. 4708. In exempted village school districts and in village school districts, each board of education shall consist of five members elected at large at the same time as municipal officers are elected and in the manner provided by law.

Date of organi-
zation; regular
meetings.

Sec. 4747. The board of education of each city, exempted village, village and rural school district shall organize on the first Monday of January after the election of members of such board. One member of the board shall be elected president, one as vice-president and a person who may or may not be a member of the board shall be elected clerk. The president and vice-president shall serve for a term of one year and the clerk for a term not to exceed two years. The board shall fix the time of holding its regular meeting.

Treasurer of the
school funds.

Sec. 4763. In each city school district, the treasurer of the city funds shall be the treasurer of the school funds. In all exempted village, village and rural school districts which do not provide legal depositories as provided in sections 7604 to 7608 inclusive, the county treasurer shall be the treasurer of the school funds of such district.

Sec. 7610-1. If the board of education in a district under the supervision of the county board of education fails to provide sufficient school privileges for all the youth of school age in the district, or to provide for the continuance of any school in the district for at least thirty-two weeks in the year, or to provide for each school an equitable share of school advantages as required by this title, or to provide suitable school houses for all the schools under its control, or to elect a superintendent or teachers, or to pay their salaries, or to pay out any other school money, needed in school administration, or to fill any vacancies in the board within the period of thirty days after such vacancies occur, the county board of education of the county to which such district belongs, upon being advised and satisfied thereof, shall perform any and all such duties or acts, in the same manner as the board of education by this title is authorized to perform them. But in a city district, or in an exempted village district, the probate court, or in counties in which the probate court and the court of common pleas have been combined, the court of common pleas, upon being advised and satisfied thereof, shall act instead of the county board of education. All salaries and other money so paid by the county board of education, or by the probate court, or by the court of common pleas, shall be paid out of the county treasury from the general fund on vouchers signed by the president of the county board of education, or by the judge of the probate court, or by the judge of the court of common pleas, as the case may be, but they shall be a charge against the school district for which the money was paid. The amount so paid shall be retained by the county auditor from the proper funds due to such school district, at the time of making the semi-annual distribution of taxes.

The petition must contain the names of not less than twenty-five youth of school age who will attend such school, and who for reasons satisfactory to the board are prevented from attending day school. Upon receiving such petition the board of education shall furnish a suitable room for the evening school and employ a competent person who holds a regularly issued teacher's certificate to teach it. Such board may discontinue any such evening school when the average evening attendance for any month falls below twelve.

Sec. 7703. Upon his acceptance of the appointment, such superintendent, subject to the approval and confirmation of the board, may appoint all the teachers, and for cause suspend any person thus appointed until the board or a committee thereof considers such suspension, but no one shall be dismissed by the board except as provided in section seventy-seven hundred and one. He must report to the board annually, and oftener if required, as to all matters under his supervision, and may be required by it to attend any and all of its meetings. He may take part in its deliberations but shall not vote.

Depots designated where transportation provided.

Sec. 7731-1. The boards of education of city, exempted village, village or rural school districts may by resolution designate certain places as depots from which to gather children for transportation to school, when such districts provide transportation. The places designated as depots shall be provided with a shelter and be made comfortable during cold and stormy weather. Such depots shall in no case be more than one-half mile from the residence or the private entrance to such residence of pupils who are compelled to use such depots.

Board of school examiners may be provided in exempted school district; laws applicable.

Sec. 7838-1. The board of education of an exempted village school district may by resolution provide for a board of school examiners. The term of office of such examiners shall be two years each, one to be appointed each year; and shall expire on the thirty-first day of August. All sections of the General Code that confer authority upon a city board of examiners shall apply to the board of school examiners for an exempted village school district. Teachers employed in an exempted village school district in which no board of school examiners has been provided for by the board of education shall be examined by the county board of school examiners of the county in which the district is located.

(4) To expedite the business and promote the ends of justice, said judge may from time to time adopt, publish and revise rules relating to the matter of practice and procedure, classify the causes of action in the court, and prescribe with reference to each class the degree of particularity with which a cause of action, set-off, counter-claim or a defense shall be set up. Until otherwise provided by rule of court and except as herein provided, the practice as to pleading and procedure shall be governed by the civil code of procedure provided for the common pleas court of the state.

Sec. 1579-572.

What cases tried by court: what by jury.

SECTION 15. All causes in the municipal court, both civil and criminal, shall be tried to the court, unless a jury be demanded by a party entitled to the same. The time for making a demand for a jury in civil cases may be fixed and limited by rule of court. In all criminal cases, in which the accused is entitled to a jury trial, a demand for a jury trial must be made by the accused before the court shall proceed to inquire into the merits of the cause, otherwise a jury shall be deemed to be waived and the cause shall be tried by the court. In all civil actions where a jury shall be demanded, except as hereinafter provided, it shall be composed of six persons, resident of either said Washington, Springcreek and Brown townships, having qualifications of electors, unless the parties agree on a less number; provided, however, that when the amount claimed by any party or the appraised value of the personal property sought to be recovered exceeds the sum of three hundred dollars, either party may demand a jury of twelve persons by specifying that number in said written demand. Sec. 1579-603.

SECTION 3. Said municipal court herein established shall have jurisdiction of any offense under any ordinance of the city of Lorain, Ohio, and of any misdemeanor committed within the limits of the city of Lorain and townships of Black River and Sheffield, Lorain county, Ohio, to hear and determine the same and impose the prescribed penalty; and cases in which the accused is entitled to a trial by jury, shall be tried by the judge of said municipal court, unless a jury be demanded as hereinafter provided; and in felonies committed within Lorain county, Ohio, such court shall have power to hear the case and discharge, recognize or commit, and, if upon such hearing the court is of the opinion that the offense is only a misdemeanor, a plea of guilty of such offense may be received and sentence and judgment pronounced; and in addition thereto said municipal court shall have ordinary civil jurisdiction within the limits of the city of Lorain and townships of Black River and Sheffield, in said county of Lorain, and state of Ohio, in the following cases:

(6.) The municipal court shall have jurisdiction upon the application of a debtor, to appoint a trustee to receive that portion of the personal earnings of the debtor, which, as against claims for necessities, is not exempt from execution, attachment, or proceedings in aid of execution, and such additional sums as the debtor may voluntarily pay or assign to said trustee, and to distribute the money pro rata among creditors having claims for necessities against the debtor at the time of application.

When a trustee shall be so appointed, no proceeding in attachment, aid of execution or otherwise to subject the personal earnings of the debtor to payment of claims for necessities shall be brought or maintained by any creditor having a claim against such debtor at the time of the application herein, before any justice of the peace or in any court, so long as at least fifteen per centum of the personal earnings of such debtor is paid to the trustee at regular intervals, as fixed by the court; provided, however,

this provision shall not be construed to prohibit creditors from recovering judgments against the debtor nor to prohibit levy, under a writ of attachment or execution, upon any other property which is not exempt from execution.

The maintaining of a proceeding in attachment, aid of execution or otherwise, in violation of the foregoing provision, may be prevented by a writ of prohibition, in addition to all other remedies provided by law.

The municipal court may provide, by rule, for notice to creditors, the authentication and adjudication of claims, the time and manner of payment by the debtor, the distribution of the funds, the bond and the trustee, if required, and for all other matters necessary or proper to carry into effect the jurisdiction conferred by this section. The bailiff shall turn over the property in his possession to the sheriff of Lorain county, Ohio, to be by him held as in like cases originating in the court of common pleas. SECTION 12. Civil actions and proceedings in the municipal court shall be commenced as in the common pleas court, and an action shall be deemed pending so as to carry notice thereof to all persons from the delivery of the summons or writ by the clerk to the bailiff for service.

(1.) All writs and process in the municipal court shall be served and returned by the bailiff, or by the publication, or in case of foreign service in the same manner as is now, or may hereafter be provided by law for the service and return of writs and process in the court of common pleas. Where the manner of service is not so provided for, service and return may be made in the same manner provided by law for the service and return of process and writs issued by the common pleas court or a police court or a mayor or a justice of the peace.

(2.) The return day shall be fixed by rule of court and the summons or writs shall, unless accompanied with an order to arrest, be served at least three days before the return day of the summons, writ or process.

In determining the true value in money for taxation purposes of such whiskey or other alcoholic liquor so stored, the value placed thereon by the owner or his agent when declaring its value for shipment by express shall be prima facie evidence of its true value in money; and in cases where whiskey or other alcoholic liquor is not shipped by express and its value for such purpose not so declared then the true value in money for taxation purposes shall prima facie be the value last declared by an owner who has shipped similar whiskey or other alcoholic liquor by express from the same warehouse or other places or buildings. In case of removal from one bonded warehouse to another bonded warehouse either within or without the state, the value of such whiskey so removed shall be determined in the same way and shall be subjected to the tax as provided in this act. Delinquent taxes shall be assessable against such whiskey or other alcoholic liquor for the same period and in the same manner as provided for taxes against other property.

“SECTION 2. It shall be unlawful for the owner or owners of such warehouse or warehouses or other places or buildings where whiskey or other alcoholic liquor is stored to permit the removal or shipment of such whiskey or other alcoholic liquor therefrom until a tax receipt is presented showing the payment of all taxes.
